

IEM's coffee-table book "Engineering Heritage of Malaysia"

Soliciting for Photographs

IEM is in the process of publishing a coffee-table book on "Engineering Heritage of Malaysia" with the following specifications:

No. of pages: 120 inclusive of cover and end paper

Size: 225 x 300 mm

The contents of the book will be as follows:

01. Bridges, 10 pages
02. Roads, 10 pages
03. Railways, 5 pages
04. Ports, 5 pages
05. Airports, 5 pages
06. Drainage & irrigation schemes, 5 pages
07. Others: tunnels, dams, etc., 10pages
08. Public and commercial buildings, 13 pages
09. Places of worship, 13 pages
10. Other structures: railway stations, lighthouses, clock towers, telecommunications towers, old palaces, etc., 14 pages
11. The national grid and power stations, 5 pages
12. The first oil rig in Miri, etc., 5 pages
13. Others: The Penang ferries, the Penang funicular railway, etc., 5 pages
14. A brief history if IEM, 5 pages

Members of IEM are hereby requested to contribute photographs related to the above subjects, bearing in mind that by "Engineering Heritage of Malaysia" we mean buildings, structures, schemes, monuments, etc. designed by engineers that are of significant historical and cultural value and have been inherited by us from past generations and are worthy of preservation for the future. Intellectual properties such as theories that have contributed significantly to the understanding and advancement of engineering science are included in this definition.

Good quality photographs, preferably digitized with a minimum file size of 1 MB, bearing an appropriate caption and the photographer's full name and contact details, should reach the IEM secretariat by 31.07.2010.

Due credit will be given for all photographs used in the coffee-table book.
