Oil, Gas and Mining Technical Division
The Institution of Engineers, Malaysia

Synopsis

Engineers always faced with a challenge to make a tough decision throughout his career. In real life, decisions are not made based on one factor only but multiple factors need to be evaluated for a decision to be made objectively and wisely. Thus engineer needs to master the art of critical thinking. Critical thinking is the identification and evaluation of evidence to guide decision making. A critical thinker uses broad in-depth analysis of evidence to make decisions and communicate his/her beliefs clearly and accurately. This something that need to be practiced when we encounter engineering problems, business decisions so that we can work towards a solution.

During this course, we will be introduced to what is critical thinking. We will practice some of the important skills of critical thinking, and apply those to understand current problems, belief systems and ethical positions. You will learn to appraise information and influences, discuss topics intelligently and construct well-reasoned arguments. This course will focus on group discussion and written analysis.

Learning Outcomes

- Explore real-world examples of why critical thinking is so important in business
- Learn to use critical thinking skills when making business decisions
- Know how to translate an abstract idea into something tangible
- Minimize the impact of job pressures on your thinking processes
- React with curiosity instead of emotion
- Get a roadmap for developing your critical thinking skills

Biodata of Speaker

Ir. Al-Khairi Mohd Daud has over 23 years of experienced in Oil and Gas, petrochemical, oleo chemical, manufacturing and facilities management. He is the country expert for ASEAN Energy Management Accreditation Scheme and an expert in healthcare facilities management. He has assisted in drafting few Malaysian Standards including the Malaysian Standard for Quality in Healthcare. He has presented papers in national and international conference especially on maintenance and asset management. He is the owner of Faqeh Management who specialized in asset and energy management.

Ir. Danaraj Chandrasegaran graduated from University Teknologi Malaysia in 2001 with Bachelor of Mechanical Engineering (Hons). Subsequently, pursued his Master Degree in University of Malaya. He has published in international journals and conferences in the past. His career has a diverse outlook on project execution ranging from building construction, marine, mining and energy industry; as a mechanical engineer.
