

TALK ON
**“OIL & GAS INDUSTRY IN TURBULENT TIMES:
SAFE PLACE? PLAY SAFE? OR DON'T PLAY PLAY?”**

(Organised by Oil, Gas & Mining Technical Division, IEM)

Date : 20th January 2018 (Saturday)
Time : 9.00am to 11.00am (*Refreshments will be served at 8.30am*)
Venue : Tan Sri Prof. Chin Fung Kee Auditorium, Wisma IEM, Petaling Jaya
Speaker : Ir. Lee Chang Quan

BEM Approved CPD/PDP Hours: 2

Ref. No.: IEM17/HQ/519/T

SYNOPSIS

In view of the hazards and risks associated with production, transportation, and handling of hydrocarbon, companies in the oil and gas industry have always given the pledge to have business top priority to the subject of safety. People may get injured or killed, and environment may be damaged. It is evident from the history that, if the hazards and risks are not managed properly, catastrophic disaster could happen, as in the case of Piper Alpha, Bhopal, or to the recent one at Macondo.

Managing safety has remained a top challenge though. In the time of market volatility, many oil and gas companies have taken serious measures to control cost so as to survive the turbulence. It is in this time of cost pressure that the pledge of maintaining health and safety as the top business priority will be tested. This talk will look into the key safety management challenges faced in the oil and gas industry, and share on how these challenges could be managed, especially in times of turbulence.

SPEAKER BIODATA

Ir. Lee Chang Quan started his career as a mechanical engineer with a design engineering firm, and moved on to join a national oil company. His experience in the oil and gas industry include engineering, procurement, installation and construction activities in plant modification and rejuvenation projects. He has led a few feasibility studies, engineering management work and managing brownfield projects. Later, he moved on to undertake operational excellence and improvement roles at business level. He is now the Health, Safety and Environment Manager with one of PETRONAS subsidiaries, formulating HSE strategies and implementation plan. He is a trained internal auditor, involving in Tier 1, 2, 3 HSE Assurance Programs. He is an active trainer in HSE programs.

Ir. Lee Chang Quan graduated from University Teknologi Malaysia with a Bachelor Degree in Mechanical Engineering. He has a Master Degree in Business Administration from University of Nottingham. He is a certified Project Management Professional (PMP®) and a Certified Solutions Focused Coach (CSFC). He is also a committee member of the Oil, Gas and Mining Technical Division of IEM

Ir. Mohd Azwira Mohd Azmi
Chairman,
Oil, Gas and Mining Technical Division
