SYNOPSIS

PETRONAS Penapisan (Terengganu) Sdn Bhd – PP(T)SB was incorporated in 1982 to meet a need to process and add value to the indigenous crude from offshore Terengganu, as well as to secure reliable, efficient, safe and cost effective supply of refined petroleum products to the PETRONAS Group of Companies. PP(T)SB has proven its capability in providing efficient, safe, reliable uninterrupted supply of petroleum products such as gasoline, LPG, diesel, jet fuel, naphtha and Low Sulphur Waxy Residue (LSWR) to its domestic customers and also exported to several overseas destinations. PP(T)SB has been entrusted to manage and operate the Aromatics plant complex, which is owned by 70% PETRONAS Chemical Aromatics Sdn Bhd (PC AROMATICS) and 30% Mitsubishi Corporation & JX Nippon Oil & Energy Corporation – (MJPX Co. Limited), that produces paraxylene and benzene. Quality and HSE ranks high in PP(T)SB's business operations as it strives to ensure that existing petroleum products specifications are met and employees are regularly trained on strict HSE measures to inculcate and maintain high level of awareness on the impact of the refinery's operations to natural surroundings. Towards this end, PP(T)SB received the MS ISO 9002, ISO 14001, ISO/IEC 10725 and received several national level HSE awards such as MSOSH Gold Award, Notable Achievement and Terengganu State Award in Prime Minister's Hibiscus Award 2012/2013.
