## **Training Workshop on Maintenance of Infrastructure 25<sup>th</sup> to 28<sup>th</sup> July 2016 Kuala Lumpur, Malaysia**

*Organized by:*

**Malaysian Service Providers Confederation (MSPC)  
International Science, Technology and Innovation Centre  
for South-South Cooperation under the Auspices of UNESCO (ISTIC)**

*Supported By:*

**United Nation Education, Scientific and Culture Organization (UNESCO)  
Malaysian Highway Authority (MHA)  
Construction Industry Development Board Malaysia (CIDB)  
The Institution of Engineers, Malaysia (IEM)  
Master Builders Association Malaysia (MBAM)  
Indah Water Konsortium (IWK)**

## **INTRODUCTION**

Supportive Global Economy is crucial for Developing Countries; as such the United Nations (UN) has formulated the United Nations Sustainable Development Goals (SDGs, a total of 17). This training workshop will illustrate the fundamentals of Maintenance of Infrastructure as one of the key to satisfy the SDGs.

Infrastructure maintenance has an integral role which covers the following seven of the SDGs Goals.

SDG 3	Good Health and Wellbeing	SDG 9	Industry, Innovation, Infrastructure
SDG 4	Quality Education	SDG 11	Sustainable Cities and Communities
SDG 6	Clean Water and Sanitation	SDG 12	Responsible, Consumption and Production
SDG 7	Affordable Clean Energy		

Infrastructure maintenance will sustain the life of major assets. When provided too soon or too late, it will incur unnecessary costs, compromise safety and the asset's economic life span.

Prudent investment will promote economic return; create jobs, human capital development and enhance the environment which captures the following nine of the SDGs goals.

SDG 1	No Poverty	SDG 13	Climate Action
SDG 2	Zero Hunger	SDG 14	Life Below Water
SDG 5	Gender Equality	SDG 15	Life on Land
SDG 8	Decent Work and Economic Growth	SDG 16	Peace, Justice Strong Institution
SDG 10	Reduce Inequalities		

At the current status there is limited infrastructure maintenance budget for the developing countries but budget for new infrastructure is always available.

Ascertain Institutional Framework on Infrastructure Maintenance (e.g. roads, water, sanitation and buildings) and good practices for planning, designing and implementing maintenance programmes will be highlighted. Based on maintenance standards, budgeting norms will be developed to facilitate accurate long-term maintenance budget forecasting, taking into account the type, age and condition of the infrastructure.

This workshop in actual fact concludes the final SDGs, 'SDG 17 - Partnership for the Goals' where Malaysia is taking a lead. The programme covers the Malaysian Ascertain Institutional Framework on Infrastructure Maintenance; assessment needs, planning, execution, including financial planning and budgetary control.

## **THE OUTCOMES OF THE TRAINING WORKSHOP**

- Consensus on the benefits of planned maintenance;
- Have the basic knowledge and motivation to promote the maintenance culture for its seamless implementation,
- Essential insights into the trend, technology and financing for maintenance of major infrastructures;
- Become members of the ISTIC alumni for infrastructure maintenance, and
- Be aware of the engineering related opportunities in the host country and contact assistance to undertake an infrastructure maintenance programme.

## **BUSINESS MATCH MAKING**

A special session on Business Match Making will be organized in this workshop.

Business Match Making is a platform to enable participants to visit the booths of MSPC, IWK, MHA, IEM, CIDB and MBAM and to establish networking and identify business opportunities.

Participants who intend to visit the booths of these organizations are encouraged to register with the organizing secretariat – MSPC / ISTIC by the third day of the workshop.

## **DURATION OF THE TRAINING WORKSHOP**

The training workshop will be held for three and half days from **25<sup>th</sup> to 28<sup>th</sup> July 2016**

## **VENUE OF TRAINING WORKSHOP**

### **Hotel Sri Petaling Kuala Lumpur**

30 Jalan Radin Anum  
Bandar Baru Sri Petaling  
57000 Kuala Lumpur, Malaysia

## **LOCAL PARTICIPANTS**

Participants from the Private and Public sectors involved in Infrastructure Maintenance are encouraged to attend this training workshop. Numbers of participants would be limited to a maximum of 30 participants in this workshop. The combination of participants from ASEAN, South countries and Malaysia will allow for an exchange of knowledge, ideas and experiences as well as opportunities for discussions, networking and possible collaboration.

A payable fee of **RM 1,500.00** per participant is required from the local participants.

Be a **Company Sponsor** by supporting this workshop by paying an amount of **RM 5,000.00**, entitling the company for the following:

- Two (2) local participants.
- Company logo (to be provided by company) printed on the workshop programme.
- Certificate as supporter for this training workshop.

## **WHO SHOULD ATTEND (LOCAL PARTICIPANTS)**

Leading and eminent management personnel involve in infrastructures maintenance that are interested in networking with the ASEAN and South countries.

## **APPLICATION AND ENQUIRIES**

- 1) Applicants are requested to apply using the online application;  
**<http://goo.gl/forms/5fLgflACHm2okJ8y1>**
- 2) Applicants are also welcome to apply using the application form attached if you have difficulty in using the online application process.

<b>End of Event</b>	

# **ORGANISERS**

**ISTIC**  
INTERNATIONAL SCIENCE, TECHNOLOGY AND  
INNOVATION CENTRE FOR SOUTH-SOUTH  
COOPERATION UNDER THE AUSPICES OF UNESCO

**International Science, Technology and Innovation  
Centre for South-South Cooperation under the  
Auspices of UNESCO (ISTIC)**

The creation of the International Science, Technology and Innovation Centre for South-South Cooperation under the Auspices of UNESCO (ISTIC) is a follow up of the Doha Plan of Action which has been adopted by the Head of States and Government of the Group of 77 and China, during the meeting in Doha, Qatar, from 12 to 16 June 2005 on the occasion of the Second South Summit of the Group of 77.

The Summit urged UNESCO to develop and implement a programme for South-South cooperation in science and technology with the objective of facilitating the integration of a developmental approach into national science and technology and innovation policies, capacity building in science and technology through providing policy advice and exchange of experience and best practices, and creating a problem solving network of centres of excellence in developing countries as well as supporting the exchange of students, researchers, scientists and technologists among developing countries.

ISTIC will act as an International Platform for South-South Cooperation in Science, Technology and Innovation and make use of the network of the G77 plus China and the Organization of the Islamic Conference (OIC). The overall goal of ISTIC is to increase the capacity for management of science, technology and innovation throughout developing countries. ISTIC Secretariat is hosted by Academy of Sciences Malaysia (ASM) for five years before making ISTIC an autonomous organization.

**International Science, Technology and Innovation Centre  
for South-South Cooperation under the Auspices of UNESCO (ISTIC)**

The Malaysian Service Providers Confederation was launched on 2<sup>nd</sup> June 2009 and incorporated as a Company with Limited by Guarantee without shares (CLBG) under the Companies Act 1963 on 2<sup>nd</sup> April 2010.

### **MSPC's Objectives**

- a) To provide a platform and focal point for all service providers to formulate common strategies in dealing with the government and make recommendations and submissions on behalf of its members;
- b) To promote and contribute towards the development of a more efficient and service-friendly environment, and the bilateral, regional and multilateral framework for trade in services; and
- c) To establish and develop links with counterpart organisations at regional and global levels.

### **Service to the Malaysian Service Provides**

To be the sole platform for formulating common strategies, networking at national, regional and international levels for service sectors; To promote and stimulate demand for services – professional, business and others; To accelerate the growth of the services sector by:

- i) Enhancing the competitiveness, productivity and efficiency of the sector;
- ii) Developing the capacities and capabilities for the sector;
- iii) Positioning Malaysia to be a regional centre of excellence for those established and maturing sub-sectors;
- iv) Engaging with the authorities, in the spirit of Malaysia inc., to create a more conducive business environment for investments and export of services;
- v) Outreaching, nurturing and partnering constituent member organizations in strengthening institutional support in both development and promotion.
