### SYNOPSIS

Established in 1985, Subang Jaya Medical Centre (SJMC) is a 393-bed multi-disciplinary tertiary hospital nestled in the heart of Subang Jaya. SJMC is Ramsay Sime Darby Health Care Group's flagship hospital and is one of the first private hospitals in Malaysia. Since then, the one-stop medical centre has evolved into a multiple award-winning medical centre and regional referral centre for niche services such as complex cancer treatments, vascular and interventional radiology, bone marrow transplants, advanced laparoscopy weight loss surgery, digestive related illnesses, urology, infertility management, and diagnostic cytogenetics. SJMC continues to stay true to the principle: investing in breakthrough medical technologies and procedures. These investments not only contribute to Malaysia's healthcare environment but also stands as a commitment to its patients.
