Date : 18th April 2017 (Tuesday)
Time : 5.30pm to 7.30pm
Venue : C&S & TUS Lecture Hall, 2nd Floor, Wisma IEM, PJ
Speaker : **Dr Dickson Lai**

SYNOPSIS

In a world of information overload, you need clear and valuable data to have a clear direction: What is best for me? What are my next steps? That all begins by knowing your personal, natural and passionate path.

It has been known for more than two decades that the human voice is the carrier of intention. With the use of our program by The Dickson Lab™, the gathered data is analysed by examining the various emotions identified by the relevant triggers. This enables us to develop an understanding of why we may respond to certain things in a particular way. It is a modern scientific tool to read and evaluate an individual's unconscious reactions to various stimuli via emotionally activated triggers. It is then identified and categorised into readable data that is presented by the program. Traditional teachings show that your thoughts shape your behaviour. What you learned, how you educate yourself and the way you receive information have the tendency to create the behaviour within you. It allows you to discover your true and real intention of who you are.

In the 2-hour talk, Dr Dickson will explain the scientific approach and methodology he used to create EmoWave, where your voice is the blueprint to your emotional intelligence. He can also explain how your voice can stabilise your mental and physical wellness.

About Speaker

Dr Dickson Lai, founder of The Dickson Lab, a world-renowned certified life and business coach, has a reputation for results. He has done business worldwide, operating in particular throughout Malaysia, Indonesia, Thailand, Hong Kong, and China. A strong believer in the power of education, he thinks of himself as a constant student, always seeking to learn more and add to his base of knowledge. He earned his Master of Business Administration at the University of Leicester and his Doctorate of Philosophy at the University of Entrepreneurship. He is an Electronic Engineer by profession before going on to become a Certified Neurotrainer at the Korea Research Institute of Jungshin Science, a Certified Emyth Business Coach, and a Certified Ontological Coach. Dr Lai has a strong track record of unleashing human potential via his EmoWave Activation process. He covers this process in more detail in his books Surfing the BrainWave, Transforming Emotional Intelligence, Shed the Extra Weight and Competency Modeling – it is important to know your character, laying out the specific methods that he uses to expand intelligence, mental strength and emotional balance, following a three-simple-step-method called The Dickson Method™. Since 2009, Dr Lai has focused on The Dickson Laboratory full-time. He is passionate about what he does and confident in his ability to meet and exceed industry standards.

Ir. Assoc Prof Dr Leong Wai Yie
Chairman
Women Engineers Section
