SYNOPSIS

Hazardous area is categorized as an area in which an explosive atmosphere is present, or may be expected to be present, in quantities such as to require special precautions for the construction, installation and use of equipment.

Currently, industry trend is moving towards IECEx scheme, which covers Certification to Standards that relate to Equipment, Services and Persons in areas relating to Explosive Atmospheres, to provide an Internationally accepted means of demonstrating claimed compliance with International Standards.

This talk aims to discuss the importance of proper Ex management in compliance to IECEx scheme, its application to electrical and instrument installation in the oil and gas industry, practical guidelines and prospects for job seekers.
