Time: 05.30 pm – 7.30 pm (*Refreshments will be served at 5.00 pm*)
Venue: Wisma IEM, Auditorium Tan Sri Prof. Chin Fung Kee, Third Floor
Speaker: Mr. Kelly Wee Kheng Soon

Synopsis

Industry 4.0 or the 'smart factory' that encompass the internet of things, cyber-physical systems and cloud computing with some industrialists term it as the fourth industry revolution is gaining momentum in recent years. A smart factory that could meet production demands based on customers' order without human intervention will be the factory owner's dream come true. How could you take advantage of these technologies and transform your company into the digital enterprise that work together with customers and suppliers in industrial/business digital ecosystem?

The speaker, Mr. Kelly Wee, will bring to us via his vast experience on the adoption of industry 4.0, the emerging of new technology in industry 4.0 and how digitization is moving from the consumer to the producers. He will shows us with the industrial/business digital ecosystem and the right ICT infrastructure, a large scale on demand customized production, transaction and delivery system of physical commodities is achievable. This is the leading trend of digital commerce domain of the future digital economy.
