SYNOPSIS

Located at Cyber Jaya, TM NOC is the most comprehensive Network Operations Centre in Malaysia. It resides in a central location from which network administrators manage, control and monitor multiple networks. The overall function is to maintain optimal network operations across a variety of platforms, mediums and communications channels.

TM NOC features a visual representation of the networks being monitored and workstations where detailed network statuses are monitored. Software is employed to help manage the networks. Telecommunications (both fixed and wireless), broadcasting and computer networks are controlled through this network operations centre.
