

InspireMe Talk

by Ir. Dr Lee Choo Yong

Ir. Dr Lee Choo Yong is currently a committee member in Electronic Engineering Technical Division (eETD) and IEM Penang Branch.

An InspireMe guest lecture by Dr. Hari Narayanan was held at the University of Nottingham Malaysia Campus on 8th December 2016. The lecture was entitled "How to thrive as an Engineer". Dr. Hari was accompanied by Mr. Danny Low and Ms. Catherine Tang from Motorola Solutions Penang. The event was supported by the IEM Electronic Engineering Technical Division (eETD) and jointly organized by Student Chapters of IEM, IEEE, IMechE, and Computer Science Society.

Dr. Hari Narayanan is the Managing Director for Motorola Solutions Malaysia Sdn. Bhd, with overall responsibility for the company's operations at its Penang site that includes supply chain, R&D, and Global Solutions & Services Center. Dr. Hari has over 23 years of experience with Motorola and has held various key leadership positions within the company during his tenure. Prior to his current appointment, Dr. Hari Narayanan was responsible for leading the Motorola Solutions R&D organization in Malaysia.

Dr. Hari receiving a token of appreciation from the Organizing Committee. Also present were Lim Yu Jun (President, UNMC IEM Student Chapter), Ir. Dr. JG Khor (IEM eETD), Prof. Andy Chan (Dean of Engineering).

During his talk, students had the opportunity to discover what is required of them, not just to *survive*, but to *thrive* as an Engineer in their future careers. Many of the students had questions regarding the electronic industry and a career in electronic engineering.

Apart from the technical aspects of the career, Dr. Hari also touched on the importance of engineers engaging with the community and society. The event was attended by more than 80 students, mainly from the Faculty of Engineering and also from the School of Computer Science.

The talk was held at the Great Hall, University of Nottingham Malaysia Campus.
