

Report on Engineering Awareness Activity with Taylors' University Lake Campus

by Ir. Sukhairul Nizam bin Abdul Razak

Ir. Sukhairul Nizam bin Abdul Razak is currently a committee member in the Engineering Education Technical Division (E2TD).

Group photo session

On 22 November 2017, program or activity engineering was held at the Wisma IEM Petaling Jaya. The program involves participants from Taylors' University students about 75 students and 1 lecturer. The objective of this program is to foster interest and awareness among students, especially University students to join IEM as member. They also visit library and main IEM's office. Through this exposure, the students can cultivate enthusiasm and interest in IEM as well to promote interest for them to be "Ir" in the future.

The speakers involved in this program is Ir Sukhairul Nizam bin Abdul Razak (CoOpted Committee Technical Education Engineering Division IEM). Ir Sukhairul has revealed the development of technology revolution in the early days of Islam until today, citing his experience in the automotive industry from the beginning of his work until now. He promote the advantage to be IEM's member and the history of IEM establishment.
