SYNOPSIS

Tenaga Kimia Berhad is the largest explosives manufacturer in Malaysia. It is the only company in Malaysia that manufacturer the state of the art Emulsion explosives. The explosives in various form are used in mining, quarrying and construction including tunnelling. The company also assembled NONEL non-electric initiation system. The company also provide training and support in the use of their products. The visit is very useful to those who are involved in blasting work and would like to learn how explosives contributes to the development of our country.
