SYNOPSIS

The world leader in gases, technologies and services for Industry and Health, Air Liquide is present in 80 countries with approximately 65,000 employees and serves more than 3 million customers and patients. Air Liquide inaugurated last January its Smart Innovative Operations (SIO) Center for the Southeast Asia Pacific region, located in Malaysia. The SIO Center enables the remote management of production for 18 Air Liquide Large Industries production units spanning eight countries across the region, as well as optimizing energy consumption and improving reliability at these sites. Air Liquide invested €20 million in this project. The SIO Center, located in Kuala Lumpur, integrates, optimizes and remotely controls the operations of Air Liquide's production units, leveraging predictive analytics and digital technologies. Through big data

combined with human intelligence, the workflow of each Air Liquide production unit linked to the SIO Center is adapted in real time to the needs of each customer.
