

Technical Visit to IKRAM PAVES SDN BHD

by Syed Khairi Syed Abbas

Syed Khairi Syed Abbas is currently a co-opted member of Highway and Transportation Engineering Technical Division (HTEDTD).

On 6th September 2017, the Highway & Transportation Engineering Technical Division (HTEDTD) organized a technical visit to the Ikram Paves Sdn Bhd in Kajang, Selangor for IEM members and non-members. Six are from IEM members and ten are from Infrastructure University Kuala Lumpur (IUKL) students.

The participants were welcome by Syed Khairi, who are committee member HTEDTD. First, the participants attended a briefing on the programme which included talks and also visit to their laboratory. The was also a briefing from three representative from IKRAM which are Mr. Vincent Ting (General Manager of Ikram Paves), Ir. Tan Wei Meng (Head of Operation Ikram Paves) and Mr. Mohd Yazip Matori (General Manager Ikram Integrated Engineering Laboratory).

Ikram Paves Sdn Bhd has been a major player in the maintenance management of Malaysia's major road systems since 1991. They have provided our expertise to the country's major expressways and the maintenance of more than 16,000 km federal roads in the country. Their management and people are committed to ensuring that our pavements and structures are of the highest standard. Ikram Paves also have complement our technical knowledge and skills with investments in sophisticated equipment and facilities. Ikram Paves have capabilities in the following areas: Pavement Evaluation, Road Inspection, Quality Control during Road Construction and System Development.

Ikram Road Scanner (IRS)

At the Ikram Lab, they have a lot of equipment's such as Vehicle Ikram Road Scanner (IRS), Device Automatic Crack Detection (ACD), Digital Laser Profiler, Asset View Digital Imaging System, GIPSI-TRAC Geometry System, The Heavy Weight Deflectometer, Coring & Dynamic Cone Penetrometer (DCP), and Grip Tester.

At the end of the technical visit, HTETD chairman Ir. Richard Wong Chuen Fun, on behalf on IEM, presented to Mr. Vincent Ting with a token of appreciation.

Mr. Mohd Yazip Matori giving explanation on pavement layer
