SYNOPSIS

Vectorlab Sdn Bhd is specialized in the External CounterPulsation (**ECP**) Therapy. It is a kind of therapy which is non-invasive and suitable for most people who have heart disorders or related ailments.

ECP has been in the forefront of alternative therapy for many many years. It has help patients and customers throughout the world in improving blood circulation throughout the body, especially in the area of the heart arterial blood vessels, also known as "natural bypass". A proven therapy which is non-invasive, ECP can cater to most people including those who are not suitable candidates for surgical bypass, angioplasty and other invasive treatments/surgery.

The Food and Drug Administration of the US has approved the use of ECP as a qualified therapy in the treatment of acute angina/refractory angina. Angina is one of the leading symptoms of heart failure and other cardiovascular diseases.
