

Pre AGM Talk on Artificial Intelligence (A.I) and It's Implications on the Engineering World

Organized by: Seniors Special Interest Group
BEM Approved CPD/PDP Hours: 2 Ref No: IEM18/HQ/232/T

Date : 7th July 2018 (Thursday)
Time : 9.00am – 11.00am (Refreshment to be served at 8.30am)
Venue : Auditorium Tan Sri Prof. Chin Fung Kee, 3rd Floor, Wisma IEM
Speakers : Ir. Tejinder Singh

SYNOPSIS

Artificial Intelligence or A.I. have fascinated humans ever since the start of the information age. At this moment AI is escaping the realm of unimaginative sci-fi tropes and staking a claim as the forefront of technological progress. A.I. is the quest for superhuman machines that have the flexibility and resourcefulness of human intelligence, but the computational power and resources of machines. Recently we have seen some impressive advances in artificial intelligence, due to the fast progress in computer technology (hardware and software) and also development of more advanced AI algorithms.

This talk will highlight the historical perspective in AI development, the increasing popularity of AI, the challenges and the promises of AI and a discussion of a newer technique i.e artificial neural networks (ANN)s of AI that promises to be more robust than previous techniques.

By and large, machines still need to be programmed for particular tasks, or failing that to be provided with enormous numbers of supervised training examples that pertain largely to a single task. Most AI software remains narrowly engineered, to specific tasks. Hence the takeover of the world by machines (aka the Terminator analogy) is a highly unlikely outcome.

BIODATA OF THE SPEAKER

Ir. Tejinder Singh currently helms a boutique engineering advisory and consulting services company, which operates in a space that intersects energy efficiency, energy management, automation, artificial intelligence, blockchains, big data and cybersecurity. He has more than 25 years of professional experience and has worked in many industries, from steel manufacturing to semiconductor industry, from energy contracting to electrical consulting, from telecommunications to academia and ICT. He is also one of the few experts in both the electrical energy and cyber security domains.

He is a certified National EnMS Expert by United Nations Industrial Development Organization (UNIDO), a Lead Auditor for ISO 27001, a Six Sigma Black Belt, a HRDF Certified Trainer, a GBI facilitator, a Registered Electrical Energy Manager (REEM) and a Certified Information Systems Security Professional (CISSP). Tejinder Singh graduated with a Bachelor's of Science degree in Electrical and Computer Engineering from Tri-State University, Angola, Indiana, USA and also holds a Masters degree in Embedded Systems Design from University of Lugano, Switzerland. He is a Professional Electrical Engineer with Practicing Certificate and is a former council member of the Institution of Engineers Malaysia (IEM).

Ir. Frankie Chong Kwet Hin
Chairman
Senior Special Interest Group, IEM

ANNOUNCEMENT TO NOTE

Effective 1st October 2017

FEEES FOR TALKS

Members

Registration Fee
Free of Charge - FOC

Administrative Fee

Online - RM15.00
Walk In - RM20.00

Non-Members

Registration Fee:
RM50.00
Administrative Fee:
RM20.00

Limited seats are available on a "first come first served" basis (maximum 100 participants).

**To secure your seat, kindly
register online at
www.myiem.org.my**

PERSONAL DATA PROTECTION ACT

I have read and understood IEM's Personal Data Protection Notice published on IEM's website at www.myiem.org.my and I agree to IEM's use and processing of my personal data
