

# ESSE '18

Engineering & Science Students Exhibition 2018

Multi-Disciplinary Engineering & Science Exploration

## INTRODUCTION

ESSE'18 is a competition at University Level and it is open to all undergraduate students in Malaysia. The aim of this exhibition is to nourish students' research, design and innovation skills in multi-disciplinary areas that relate to engineering, science and technology. Our mission is to support and encourage students from Malaysia to share their knowledge, research work and experience during the exhibition and ultimately will contribute to the development of engineering, science and technology.

## ELIGIBILITY AND ENTRY

- This exhibition is open to all undergraduate students who are currently pursuing higher studies in any recognized university or college in Malaysia regardless of their field of studies.
- Each group must consist of a **maximum of five participants** only.
- Each group has to bring the prototypes and posters during exhibition.

## EVALUATION PROJECT

- The exhibition will be evaluated by panel representatives from IET Malaysia, IEM Malaysia and professionals from electrical, civil and mechanical engineering industries.
- The project will be evaluated based on the overall project (20%), authenticity, adaptation and creativity (30%), usefulness (30%), potential project (10%) and effectiveness of project costs (10%).
- Marks will be 100% from the panel and the decisions by the panel are final and no appeal will be entertained.
