**Technical Visit to Construction Development Lab (CDL), Lafarge Malaysia**  
 (Organized by: Highway & Transportation Engineering Technical Division)  
 BEM Approved CPD/PDP Hours: 3 Ref No: IEM18/HQ/150/V

Date : **19<sup>th</sup> July 2018 (Thursday)**  
 Time : **09.00am – 2.00pm (Assemble at Construction Development Lab (CDL), Petaling Jaya at 9.00AM)**  
 Venue : **Construction Development Lab (CDL), Jalan Kilang 51/B, PJS 51, 46050 Petaling Jaya, Selangor, Malaysia**

**Company Background**

**Lafarge Malaysia** opens its Construction Development Lab (CDL) in Malaysia on 23 June 2014, making it the first in South East Asia and fifth in the world. The CDL enables Lafarge Malaysia to tap into its Group global experience and technical know-how and bring in and adapt solutions at a much faster rate to meet the local market conditions and technical requirements, catering to the Malaysian construction industry's needs. The CDL is to function as a collaboration hub for Lafarge to work closely with its stakeholders, to understand the local construction industry needs and challenges as well as to develop solutions for the local construction industry. Architects, developers, engineers and others can come together to participate in the development and testing of new ideas and solutions at the CDL. It houses three labs - cement, a concrete and an aggregates lab, with state-of-the-art testing equipment for quality control and assurance of its products. It also has an open testing space for prototypes and demonstrations of new systems and structures. Located nearby the CDL is a ready-mixed concrete batching plant which makes it ideal for tests and demonstrations to be carried out.

| Time           | Tentative Itinerary   |
|----------------|---|
| 9.00am         | Arrival at Construction Development Lab (CDL), Petaling Jaya                |
