

National STEM Movement Minggu Sains Selangor

by Chua Yaw Long

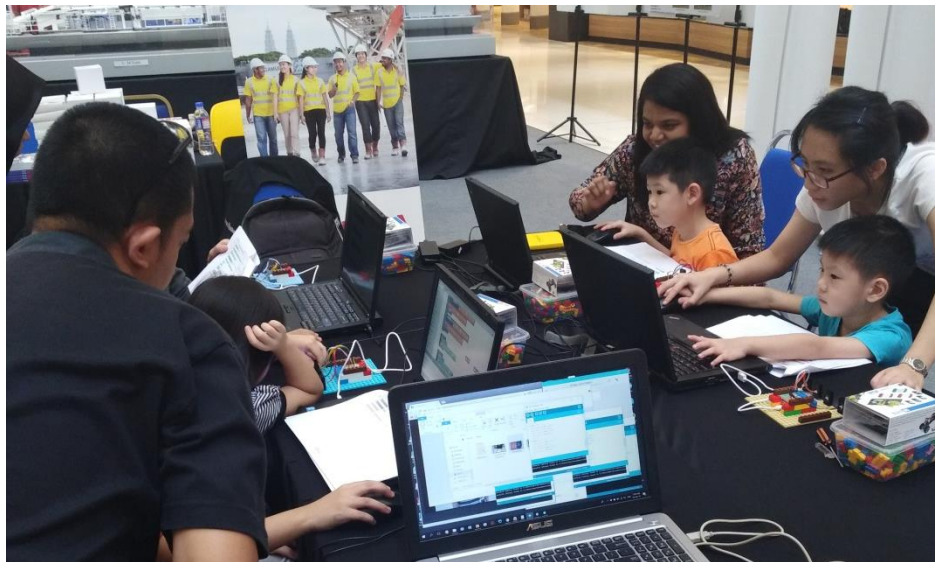

Chua Yaw Long is currently a committee member in the Engineering Education Technical Division (E2TD).

IEM E2TD through its STEM Promotion Subcommittee participated in the Karnival STEM in conjunction with Minggu Sains Peringkat Selangor. The STEM Carnival was held from 6th – 8th April 2018 at the Damen Mall in Subang Jaya.

The carnival was jointly organised by the National STEM Movement, MACRI, and MIMOS Sdn Bhd. Throughout the event, various talks, exhibitions, hands on activities and games were organised and carried out. Participants were mainly from primary and secondary school students.

IEM STEM Promotion Subcommittee took up a booth to showcase some engineering students' work to the audience. Ir. Amir conducted a short workshop for the students and participants throughout the 3-days event. Student members from Nilai University, Tunku Abdul Rahman University College (TARUC), Heriot Watt University Malaysia Campus, Taylors University, and UiTM assisted in the STEM Carnival.

The STEM Carnival had been very successful and had been reported to STEM movement worldwide.

Students from Taylors University assisting in the workshop

Even children at very young age did hands on activity in IEM workshop

Students from TARUC and Nilai University

The Official Mascots visited IEM booth with Heriot Watt Staff and Student
