The Boilermech Group, comprising of Boilermech Holdings Berhad and its wholly owned subsidiary Boilermech Sdn Bhd, is an industry leading biomass boiler manufacturer. Boilermech's expertise lies in the design, manufacturing, installation and commissioning of bi-drum water tube boilers firing various types of biomass fuel such as palm, bagasse, wood and rice husk. Starting in 2005, Boilermech has over the years acquired a reputation of being a reliable manufacturer and technology provider, particularly with the ability and specialty to provide designs and engineering solutions to suit customers' individual needs and technical requirement, and the capability to ensure timely delivery and installation of boiler at site. Boilermech's customers are mainly from various industries for instance, oil palm industries, sugar mills, flour mills latex plants, rubber glove plants, etc. To date, Boilermech have installed more than 400 units of biomass fired boiler internationally by providing various grate design options for different refineries, process plants and also as components of turnkey power generation plants.
