### SYNOPSIS

#### **JEKS GROUP**

In 1994, JEKS Engineering Sdn Bhd was established; it was the original founding company of JEKS Group, possessing a Finnish origin. JEKS Group is actively involved in the design, engineering, development and building of precast concrete and other Industrialised Building Systems (IBS) for various buildings and infrastructure projects in Malaysia, Singapore, Thailand and Sri Lanka.

They are specialised in various kinds of precast and prefabricated systems and components. More than 200 precast system projects had been implemented over the past twenty years, where they have been an installer and/or complete system designer, supplier and site implementer.

JEKS is specialised in the manufacturing of precast concrete components. Their factory has vast production capacities and experience in both pre-stressed and reinforced concrete products. They have a wide range of products.

Personal protective equipment must be worn

Please bring your own Personal Protective Equipment (PPE):

1. Safety shoes
2. Safety helmet
3. Safety vest
