Pulau Indah

Pulau Indah, a unique island off the west coast of Selangor. Its literal translation which means “beautiful island”, encompasses the serene beauty of a coast enveloped with natural mangrove swamps and rich ecosystem. The south of the island is clustered with traditional Malay villages thriving with various agricultural and fishing activities. Pulau Indah is also regarded as the “Gateway of Malaysia”, being home to one of the busiest ports in the world, Westports Malaysia Bhd. The northern counterpart of this island bustles with rapid urbanization and commercial developments, with the movements of import and export cargoes arriving and departing from this point to other parts of the world. It was a turning point for the once upon a time hidden island that is now the highlight in the maritime world. Pulau Indah is a unique blend of world-class maritime industry and local tranquility.
