WOLVERINE 

WHO WE ARE

Born in Michigan, we've been building boots for over 135 years to be every bit as tenacious and capable as the people who wear them.

We're not good because we're old — we're old because we've stayed good.

WHAT WE DO

Wolverine stands up for the people who rise above challenges and want to conquer whatever the day brings.

We deliver guaranteed comfort and time-tested construction design to help you tackle what's next.

Beat us. Bust us. Go as hard as you can. Wolverines live for the fight.

WHAT WE BELIEVE

With hard work and a tenacious spirit, any challenge can be tackled and any battle won.

WHY WE EXIST

To support the people who forge their own path; men and women who stop at nothing to build the future they want.

A man with short, light-colored hair and a serious expression is sitting on two large concrete blocks. He is wearing a dark, long-sleeved plaid shirt over a dark jacket, dark jeans, and black work boots. He is holding a pair of red work gloves in his hands. The background is dark and textured, with a red and grey diagonal stripe on the left side. The floor is dark and covered with small, light-colored rocks or debris.
