

YOUNG ENGINEERS AWARD

The objective of the Awards is to encourage interest in engineering and to recognize potential among young engineers in Malaysia. The Award will be presented to the person who has shown outstanding ability and leadership qualities, either

- i) In the design and/or construction of an engineering device or system of merit; or
- ii) In the research and development or teaching of engineering

In any one year, the Award may be made in either one or both of the categories mentioned above. If the Award is to be made in only one of the two categories may be made in the year. The award is open to candidates who are: -

- i) Registered member with the Board of Engineers, Malaysia and under 35 years of age
- ii) Malaysian citizens or permanent residents of Malaysia
- iii) Graduate or Corporate Members of IEM

Criteria of proposer

- i) The proposer may not or not be a Member of IEM. However each nomination shall be supported by a brief recommendation from two Referees who are Corporate members of IEM. If the proposer himself a Corporate Members of IEM (or higher), then he may act as one of the two required Referees

Nominations for the award are to be made annually. The Award will comprise a cash prize of RM500.00, a scroll and plaque, to be presented with due ceremony to each recipient of the Award
