

WEBINAR TALK

Sharing of Experience Delivering a Plug and Abandonment Project During Pandemic

CPD Hours : 2 CPD Ref No : IEM21/HQ/113/T(w)

Oil, Gas and Mining Technical Division

SYNOPSIS

Delivering any project during this pandemic period is a significant commercial risk and full of logistics challenges. This talk is about sharing of experience delivering a wells plug and abandonment project as part of asset decommissioning work.

Complexities of the project equipment preparations, quarantine requirements, personnel safety and swab test requirements, restriction for marine vessels movements are some of the issues that a project has to go through in order to deliver the project. Some of you may be facing the same issues or will be facing the similar issues as the pandemic is yet to be over. Come and join us to share our experiences for the learning of others.

SPEAKER

Ir. Razak Yakob

Drilling Engineering Consultant
PEPC
IEM Fellow Member
AFEO Honorary Member
