MEMBERS PRESENT – AS PER APPENDIX A

1.0 OPENING ADDRESS BY THE PRESIDENT

The President, Y.Bhg. Datuk Engr. Prof. Dr Ow Chee Sheng welcomed members present and called the 48th Annual General Meeting to order at 9:00 am. The President informed that it was the first time that IEM organised its Annual General Meeting away from the IEM premises and extended IEM's gratitude to the Ministry of Works for allowing IEM to use the Dewan Tan Sri Mahfoz Khalid for IEM's 48th Annual General Meeting. Datuk President also extended his appreciation to the staff of the Ministry for their assistance and support in arranging the venue.

1.2 Datuk President further added that IEM had been looking into possible purchase of a new building for The Institution in view of the increase in activities and membership strength.

The expenditure for 2005 was RM 2,361,839.00.

5.5 After Engr. Lee Weng Onn's presentation, the Chairman invited questions from the floor.

5.6 As there were no queries from the floor, Engr. Sahar bin Saad (M19274) proposed that the statements of accounts for the Institution be adopted. The motion was seconded by Engr. Leong Siew Meng (M7970). The AGM adopted the accounts as presented.

5.7 Engr. Lee Weng Onn then proceeded to present the Statements of Accounts for the IEM Education Fund for the year ended 31 December 2006.

The AGM was informed that the surplus of RM5,004.00 was mainly from the interest generated from Fixed Deposits. There being no queries or questions raised, Engr. Mohd Aman Hj Idris (F2176) proposed that the Education Fund accounts be adopted. The motion was seconded by Engr. Chong Chin Meow (M2641). The AGM unanimously adopted the accounts as presented.

6.0 ANY OTHER BUSINESS (AOB)

6.1 Honorary "Engr."

The President informed the AGM that there was a written notice received from Engr. Tan Hoe Tim (F692) with regard to the issue of the "Ir." and "Engr.". The Hon Secretary was invited to read out the letter from Engr. Tan Hoe Tim. The AGM was informed that the title "Engr." was a branding exercise for IEM and would use the title when addressing members where matters of IEM were concerned. Members were however free to use the title "Ir." for all their outside dealings. Nevertheless, IEM had sent out notices to the members to select whether they preferred to be addressed using the "Ir." or "Engr.".

In addition, members present were also informed that the resolution passed by Council to have the title for IEM members in the grade of Fellow, Member and Graduate was raised, discussed and passed by the Annual General Meeting on 16 April 2005. Balloting was also carried out and at the counting of ballots held on 20 August 2005, members voted in favour of the title.

The President then proceeded to invite members from the floor to present other issues.

6.2 Washington Accord

Engr. Patrick Cyril Augustin (F02981) queried on the status of the Washington Accord adding that Malaysia's failure to be admitted to the Washington Accord was an indication that the accreditation system of engineering education in the country did not meet international standards.

The President clarified that Malaysia was invited to participate during the formation of the Washington Accord but IEM had declined in view of the huge costs implication. A total of eight countries namely USA, UK, Australia, New Zealand, Japan, Canada, South Africa and Ireland started the Accord. Malaysia had since indicated its desire to be admitted to the Accord and was currently still working towards compliance or satisfaction of the requirements for admission. Malaysia was accepted as provisional signatory in 2003 and was expected to submit an application for full signatory in 2009.

Y.Bhg. Dato' Engr. Prof. Dr Chuah Hean Teik further explained that as a provisional member, there would be a need for Malaysia to ensure that the accreditation system was up to the internationally recognised standard. He also added that the Accord was not a government to government agreement. Once admitted as a provisional member, a lot of work needed to be done. The Mentors appointed to evaluate the provisional signatory's progress must be satisfied and comfortable with the accreditation system adopted by the country.

The AGM was further informed that the Engineering Accreditation Council (EAC) was established comprising BEM, IEM, JPA and LAN in the year 2000. Y.Bhg. Dato' Engr. Prof. Dr Chuah also clarified that the EAC would be inviting the Mentors for the third visit in 2007 and if the feedback of the Mentors was positive, a team of reviewers would be visiting Malaysia for the evaluation and upon satisfactory review, would then recommend for full signatory admission.

- 6.3 Engr. Patrick Augustin (F02981) further commented that IEM's representation to the Board should reflect the proportion of IEM's membership. If 80% of IEM's membership were practising engineers, then the composition of representatives nominated to serve in the Board should also be made up of 80% practising engineers.

The President pointed out that the IEM representatives nominated to serve on the Board were Excomm members and the important consideration was the effectiveness of the member representing the Institution and not whether the engineer was from the practising group or non-practising group.

Nevertheless, from 2005, it was decided that the IEM President would not serve on the BEM Board so as to provide a second line of defence for the Institution in the event there were issues that IEM had strong opinions to uphold.

6.4 Certificate of Completion and Compliance (CCC)

Engr. Dr. Eric Goh Kok Hoe (F7768) cited the recent issue of the CCC which was implemented with effect from 12 April 2007 and enquired on the implication to engineers especially those from Consulting practice who would have to undertake heavy responsibility. He also enquired on the issue of payment of professional fees.

Engr. Tan Yean Chin, Chairman of the Standing Committee on Professional Practice informed that whether it was the old system or the new CCC, engineers would still be signing the forms. He clarified that there was no new addition, pointing out that with the CCC, the engineers would definitely have more protection as Contractors had also been made responsible. In the past engineers had to be responsible for matters that were beyond their control. Nevertheless, a series of lectures would be organised to create awareness amongst IEM members with regard to the implication of the new system.

Where professional fees were concerned, it was pointed out that the IEM would champion the proposal that BEM take up the position of stakeholders. This proposal had already been forwarded to the Board.

- 5.2 Engr. Lee Weng melaporkan bahawa bagi tahun 2006, Institusi telah membuat kelebihan sebanyak RM153,237.00 berbanding dengan defisit sebanyak RM116.53.00 pada tahun 2005.

Sebab utama penyumbangan kepada kelebihan adalah seperti berikut :

Pendapatan daripada seminar dan persidangan	RM 301,643
Pendapatan daripada khidmat sekretariat	RM 50,929
Pendapatan daripada Penilaian program Ijazah Kejuruteraan	RM 76,900
Pendapatan daripada aktiviti 'Technical Divison'	RM 211,585

Minit Mesyuarat Agung Tahunan Ke 48

Minutes of 48th AGM

Pendapatan daripada Kad Kredit	RM 84,672
Pendapatan daripada iklan dalam Buletin	RM 88,634

5.3 Jumlah pendapatan bagi tahun 2006 adalah sebanyak RM2,646,638.00 di mana lebih kurang 70% adalah daripada yuran tahunan dan selebihnya dari punca pendapatan lain.

5.4 Terdapat pertambahan pendapatan sekitar RM300,000.00 pada tahun 2006 berbanding dengan tahun 2005. Ini adalah disebabkan oleh pertambahan pendapatan dari aktiviti anjuran 'Technical Divison.' Perbelanjaan pada tahun 2006 berjumlah RM2,451,321.00 di mana 47% adalah untuk penggajian staf, 33% untuk perbelanjaan pentadbiran dan selebihnya adalah untuk perbelanjaan lain termasuk subsidi untuk Cawangan.

Perbelanjaan bagi tahun 2005 adalah sebanyak RM2,361.839.00

5.7 Engr. Lee Weng Onn kemudian telah membentangkan Penyata Kewangan Tabung Pendidikan IEM bagi tahun berakhir pada 31 Disember 2006.

MAT telah diberitahu bahawa kelebihan sebanyak RM5,004.00 adalah daripada hasil faedah Deposit Tetap.

Memandangkan tiada soalan atau pertanyaan, Engr. Mohd Aman Hj Idris (F2176) telah mencadangkan Penyata Kewangan Tabung Pendidikan diterima. Cadangan itu telah disokong oleh Engr. Chong Chin Meow (M2641). MAT sebulat suara meluluskan Penyata Kewangan seperti dibentangkan.

6.0 HAL-HAL LAIN

6.1 Gelaran "Engr."

Gelaran "Engr" Yang Dipertua memaklumkan kepada MAT bahawa notis bertulis telah diterima daripada Engr. Tan Hoe Tim (F962) berkenaan dengan penggunaan 'Ir.' dan 'Engr'. Setiausaha Kehormat telah dijemput untuk membaca surat daripada Engr. Tan Hoe Tim itu.

MAT dimaklumkan bahawa gelaran 'Engr' merupakan usaha penjenamaan IEM dan ia akan menggunakannya untuk urusan berkaitan dengan IEM. Ahli IEM walaubagaimanapun adalah bebas untuk memilih mana-mana satu gelaran 'Ir' atau 'Engr' apabila berurusan di luar. IEM juga melalui notis yang dihantar, telah memberi pilihan kepada ahli samada mahu dipanggil 'Ir' atau 'Engr'.

Datuk Yang Dipertua kemudian menjemput ahli-ahli untuk mengemukakan isu lain yang berbangkit.

6.2 Washington Accord

Engr. Patrick Augustin (02981) bertanya mengenai status Washington Accord seraya menambah bahawa kegagalan Malaysia untuk diterima Washington Accord menunjukkan sistem akreditasi pendidikan kejuruteraan dalam negara tidak mencapai tahap piawai antarabangsa.

Datuk Yang Dipertua menyatakan bahawa Malaysia telah dijemput untuk menyertai Washington Accord semasa penubuhannya tetapi IEM telah menolak disebabkan implikasi kos yang tinggi. Sebanyak 8 negara iaitu USA, UK, Australia, New Zealand, Jepun, Kanada, Africa Selatan dan Ireland telah menyertainya. Malaysia kemudiannya telah berminat untuk menyertai 'Accord' itu dan kini masih dalam proses untuk memenuhi syarat kepatuhan untuk penyertaan. Malaysia telah diterima sebagai 'provisional signatory' pada tahun 2003 dan dijangka memohon penyertaan sepenuh dalam tahun 2009.

Y.Bhg. Dato' Engr. Prof. Dr Chuah Hean Teik seterusnya menerangkan bahawa sebagai ahli 'provisional', Malaysia perlu memastikan sistem penilaiannya mencapai tahap piawai antarabangsa. Beliau juga menambah bahawa 'Accord' bukanlah perjanjian di antara kerajaan dengan kerajaan. Sebagai ahli 'provisional', banyak kerja perlu dilakukan. Mentor yang telah dilantik untuk menilai perkembangan mesti berpuas hati dengan sistem penilaian yang digunapakai oleh Malaysia.

MAT kemudian telah dimaklumkan bahawa Majlis Akreditasi Kejuruteraan (EAC) telah ditubuhkan dengan penganggotaan BEM, IEM, JPA dan LAN pada tahun 2000. Y.Bhg. Dato' Engr. Prof. Dr Chuah juga menerangkan bahawa EAC akan menjemput Mentor untuk lawatan kali ke 3 pada tahun 2007 dan jika maklumbalas daripada mentor adalah positif, sekumpulan 'Reviewer' akan melawat Malaysia untuk membuat penilaian dan jika memuaskan, mereka akan mengesyorkan keahlian penuh.

- 6.3 Engr. Patrick Augustin (F02981) seterusnya memberi pandangan bahawa nisbah wakil IEM ke Lembaga Jurutera Malaysia seharusnya mengikut nisbah keahlian IEM. Jika 80% keahlian IEM merupakan jurutera perunding, maka nisbah wakil IEM ke Lembaga juga harus merupakan 80% jurutera perunding.

Datuk Dipertua menyatakan bahawa wakil IEM di Lembaga Jurutera Malaysia merupakan Ahli Excomm dan yang penting adalah keberkesanan ahli yang akan mewakili IEM dan bukan samada ahli daripada kumpulan jurutera perunding atau tidak.

Walaupun bagaimanapun semenjak 2005, telahpun diputuskan bahawa Yang Dipertua IEM tidak akan menganggotai BEM sebagai mekanisme untuk 'second line of defence' andainya terdapat isu yang perlu dipertahankan oleh IEM.

6.4 Sijil Kesiapan dan Kepatuhan (CCC)

Engr. Dr Eric Goh Kok Hoe (F7768) membangkitkan isu semasa berkenaan CCC yang telah dilaksanakan bermula dari 12 April 2007 dan bertanyakan tentang implikasi kepada para jurutera terutamanya jurutera perunding yang terpaksa memikul tanggungjawab yang berat. Beliau juga bertanya tentang pembayaran yuran profesional.

Engr. Tan Yean Chin, Pengerusi Jawatankuasa Tetap Amalan Profesional memberitahu bahawa baik sistem lama atau sistem CCC, jurutera masih perlu untuk mengesahkan borang-borang. Walaupun tiada yang baru, jurutera lebih terlindung kerana kini kontraktor juga sama bertanggungjawab. Di masa lampau, jurutera perlu bertanggungjawab bagi perkara yang di luar kawalannya. Walaupun bagaimanapun satu siri ceramah akan dianjurkan untuk memberi penerangan mengenai implikasi sistem baru ini.

Dari segi yuran profesional, adalah ditegaskan bahawa IEM akan menjuarai cadangan agar BEM mengambil tempatnya sebagai 'stakeholders'. Cadangan berkenaan telah dimajukan kepada Lembaga yang sedang meneliti cadangan tersebut.

7.0 PENGUMUMAN KEPUTUSAN PEMILIHAN BAGI MAJLIS SESI 2007/2008

Beliau mengesahkan bahawa proses pemilihan telah dilaksanakan seperti prosedur yang ditetapkan oleh Majlis. Dengan demikian, notis untuk menjemput pencalonan telah diletakkan dalam website IEM.

3 THE COUNCIL AND THE EXECUTIVE COMMITTEE

3.1 For the session, a total of six Council meetings had been held of which five were the usual Council meetings with an Extraordinary Council meeting arranged on 22 June 2007 to approve the purchase of the new IEM premise. There were a total of 20 Executive Committee (Excomm) meetings held this session to manage the affairs of the Institution in accordance with the Constitution and Bylaws.

3.2 During the session, Council upgraded the status of the AdHoc Committee on Amendments to the IEM Constitution and Bylaws under the Chairmanship of the Late Academician Tan Sri Engr. (Dr) JG Daniel to the status of a Special Committee in view of the continual improvement that needed to be made to the IEM Constitution.

3.3 The Council also recognised the efforts of the Ad Hoc Committee on Acquisition of New IEM Building under the chairmanship of Y.Bhg. Datuk Engr. (Dr) Ahmad Zaidee Laidin, FIEM, P.Eng., which had completed its task when IEM purchased a new 4° storey building at Lot 180, Section 6 with postal address No. 21, Jalan Selangor, 46000 Petaling Jaya at the New Town Centre (State area), opposite the Bangunan Ingenieur, Petaling Jaya.

3.4 The IEM Council consented to the purchase of a new 4° storey building situated opposite the Bangunan Ingenieur, located along Jalan Selangor, Petaling Jaya. Y.Bhg. Dato Prof. Engr. Dr Chuah Hean Teik, FIEM, P.Eng., Deputy President and Chairman of Finance was then appointed to look into the loan application for the purchase and to pursue on the tenancy agreement with the ICHS Network Sdn Bhd.

3.5 Council then set up a *Special Committee on Fund Raising for the Acquisition of the New IEM Building* chaired by Y.Bhg. Dato' Engr. (Dr) Abu Hashim bin Abd Ghani, MIEM, P.Eng.,

3.6 The Renovation Committee under Engr. Tan Yean Chin, FIEM, P.Eng. formed to look into the renovation plans and works for Bangunan Ingenieur, was therefore temporary suspended and would be re-designated to look into the refurbishing and renovation of the new building.

3.7 Council also agreed that these Committees looking into financing and matters relating to the new building be placed under the purview of the Standing Committee on Finance.

4. STANDING COMMITTEE ON FINANCE

4.1 The Standing Committee chaired by the Deputy President, Y.Bhg. Dato' Engr Prof. Dr Chuah Hean Teik FIEM, P.Eng., continued with the role of monitoring the financial management of the properties and affairs of the IEM. Regular meetings were held on every 3rd Wednesday of the month.

4.2 Annual Subscription

The financing of the operating expenditure of the Institution continues to depend heavily on the payment of annual subscriptions which made up approximately 70% of the total annual income of the Institution. In 2007, despite concerted efforts put in to

generate income from other sources especially from Technical Divisions who organised many profit making courses, seminars and conferences, the income from annual subscriptions still contributed 72% of the total income of the Institution. This was due to the increase in the subscription fee payable as well as increased membership drive activities that managed to double the number of members admitted in 2006. In accordance with the Bylaws, the Institution sent out one general notice and two reminders (final reminders by A.R Registered postage) to promptly remind members to pay their annual subscriptions. IEM wish to take this opportunity to thank all members who have promptly settled their subscriptions for 2007. Due to their conscientiousness, the total collection of annual subscriptions achieved 86% of the expected collection for year 2007. As at the end of the financial year 2007, there were however still 3,509 members in arrears of subscription for 2007.

4.3 **Administrative Expenses**

Every concerted effort was made to control the rate of increase of expenditure through more effective budgetary control measures without seriously impairing the provision of Secretariat services to all grades of membership. This had resulted in the expenses being controlled at 92% of the income – similar to 2006 – inclusive of expenses incurred for the purchase of the new building e.g. legal fees, valuation fees, bank interest etc.

4.4 **ISO 9001:2002**

The ISO Surveillance Audit by SIRIM QAS was carried out in March 2007 and re-certification was granted. Internal Audits were continuously conducted to ensure that the staff perform their duties/works in compliance to the procedures.

4.5 **Bangunan Ingenieur and New IEM Building**

The ground floor of Bangunan Ingenieur continued to be rented to Pizza Hut with the IEM Library maintained at the Basement. Secretariat was housed at the 1st Floor with the 2nd Floor and Penthouse utilised for monthly meetings and activities. IEM acquired another new office premise in 2007 in view of increased activities as well as membership strength. With the imposition of the CPD requirement by BEM, attendance at talks, courses and seminars organised by IEM had increased tremendously in the last one and a half years. In order to provide bigger space and better environment for members when they attend these activities, IEM Council decided to acquire the building across the road from the current Bangunan Ingenieur in April 2007 at a price of RM13.5 million. From its reserve funds, IEM was able to put up the first 10% of the purchase price. The balance was settled via a bank loan from Alliance Bank (M) Berhad. The term loan was obtained for a 15-year period with a monthly repayment of RM91,402.00 for the first year, RM103,399.00 for the second year and thereafter RM107,826.00 until the fifteenth year.

The whole process of acquisition including the bank loan completed in November 2007. The building is currently tenanted by ICHS Network Sdn Bhd operating a nursing school at a monthly rental of RM85,000.00.

4.6 **Ad Hoc Committee on Fund Raising**

This Ad Hoc Committee chaired by the Hon Treasurer, Dato' Engr Abu Hashim Abd Ghani, FIEM, PEng., was formed with an aim to raise funds for the new building. The Ad Hoc Committee aimed to raise sufficient funds through various means to settle the loan so as not to burden future generations of members.

Currently, the Committee had through donations from members and private organisations raised approximately RM140,000.00. The Committee would also be approaching private organisations to solicit donations with an aim to settle the balance of the loan sum as soon as possible.

4.7 **Administrative Fee for Talks**

In view of the need for funds to finance the purchase, the Council had approved the charge of RM10.00 administrative fee for members to attend evening talks organised by IEM with effect from 1 August 2007.

The imposition of an administrative fee was a temporary measure as IEM had over the years been financing the evening talks by not charging members for the expenses incurred in arranging the activities. However, in view of the need to allocate funds to finance the new building, IEM would need to keep tight control of its funds and as such had to impose this administrative fee for this difficult preliminary period.

4.8 **Sub-Committee on Human Resources**

This Sub-Committee looked into staff matters and was chaired by the Hon. Secretary, Engr Oon Chee Kheng, FIEM, PEng., for this session. Meetings were held regularly to deal with matters relating to Human Resource matters of the IEM Secretariat.

In order to ensure that the Secretariat staff are well equipped to handle various matters with regard to the operations of the Institution efficiently, Secretariat staff were sent to attend training programmes identified by the Sub Committee.

**4.9 Sub-Committee on IEM Infrastructure**

This Sub-Committee was chaired by the Hon. Treasurer Y.Bhg. Dato' Engr Abu Hashim Abd Ghani, FIEM, PEng.. The Sub-Committee played an important role in monitoring not only the maintenance of Bangunan Ingenieur but also other facilities such as usage of the meeting rooms, security system of IEM, fire protection, ICT computerisation and networking as well as the general facilities. The Sub-Committee was also given the task of looking into the renovations as well as maintenance of the new building in preparing for IEM activities.

4.10 Sub-Committee on IEM Investment

This Sub-Committee was formed in 2004 to look into alternative investment of IEM Funds to generate more income for IEM through various secured investment instruments offered by financial institutions. Engr Choo Kok Beng, FIEM, PEng., the Chairman for the session decided that in view of the need for funds to finance the new building, alternative investment of IEM funds would be kept in abeyance. Instead, the Committee was steered into looking at ways and means to generate more funds for the Institution through more effective investment of its current resources be it tangible or intangible.

5 STANDING COMMITTEE ON QUALIFICATIONS AND ADMISSIONS

5.1 This Standing Committee chaired by Y.Bhg. Dato' Engr. Abdul Rashid bin Maidin, FIEM, PEng., played an important role in scrutinising applications from candidates for election/admission/transfer for the various grades of membership. Monthly meetings were held during the session on every 2nd Monday of each month to process membership applications and to discuss matters relating to accreditation and membership drive. This Committee also worked closely with the Standing Committee on Examinations and Training to organise regular talks on career in engineering and route to MIEM as well as organising of membership drive campaigns.

5.2 Up to 31 December 2007, a total of 2,990 candidates were approved for election, admission and transfer to the various grades as listed below:

	2005	2006	2007
(a) Transferred to the Grade of Distinguished Hon. Fellow	-	-	-

5.3 Membership Applications Board (fka Subcommittee on Admissions)

This Membership Applications Board chaired by Engr. Hoo Choon Sean FIEM, PEng., vetted and processed applications for the various grades of membership of the Institution before forwarding them to the Standing Committee for approval.

5.4 Processing of AER and APEC/EMF International Engineer Register Applications

The Membership Applications Board also adopted the role of vetting applications from members of the Institution for ASEAN Engineers Register and the APEC/EMF International Registers. The breakdown of applications for these two Registers were recorded as follows:

- 24 approved for ASEAN Engineers Register (AER)
- 26 approved for International Engineer Registers (APEC/EMF)

5.5 Sub-Committee on Membership Drive and Career Guidance

Chaired by Engr. Noor Hisham bin Yahaya, FIEM, PEng., this Sub-Committee's role was to organise membership drives at various organisations and conduct talks on career in engineering as well as "Route to MIEM" at local schools, colleges and IHLs. The IEM G & S Section and Technical Divisions contributed tremendously towards the success of these activities which attributed to the huge increase in membership strength for the year. The Sub-Committee also looked into improving the presentation materials to assist speakers in their talks. Talks were presented to organisations not only within the Klang Valley but also at IEM Branches to encourage engineers to join the Institution.

5.6 IEM Accreditation Board

The Accreditation Board, under the chairmanship of Engr. Prof. Dr. Zainal Abidin Ahmad, FIEM, PEng., continued to assist the Engineering Accreditation Council (EAC) to evaluate local engineering degree programmes offered by both private and public IHLs. The Board processed and checked submissions from public universities before forwarding the documents to the EAC for evaluation and thereon accreditation. It also maintained an updated list of accredited engineering degree courses from the local universities both public and private for public reference.

5.7 Engineering Accreditation Council (EAC)

IEM continued to have 5 representatives in the 5 major disciplines serving in the EAC with the Chairman serving as the Deputy Chairman of the EAC.

6. STANDING COMMITTEE ON EXAMINATIONS AND TRAINING

6.1 The Standing Committee chaired by Engr. Vincent Chen Kim Kieong FIEM, PEng., continued to deal with the regulating of professional interviews, co-ordination of the IEM/BEM Graduate Examinations, administering the IEM Training Scheme including Continuous Professional Development (CPD) and also liaising with the IEM Training Centre where necessary.

6.2 Professional Interview Board

This PI Board chaired by Engr. Vincent Chen Kim Kieong FIEM, PEng., was responsible for the co-ordination of professional interviews of all Branches including the Head Office. The results of the professional interviews conducted from January-December 2007 were recorded as follows:-

Applied to sit	Failed	Waiting for result	Postponed	Passed
585	43	185	28	329

The Board continued to organise a number of Professional Interview workshops at IEM Headquarters, Branches and private organisations and at universities. For the year 2007, 2 professional interview workshops were held at the Head Office and similar workshops were held in Sarawak, Johor, Perak and Sabah.

With effect from 1 January 2007, IEM was appointed to conduct the Professional Assessment Examination on behalf of the Board of Engineers, Malaysia (BEM). All interviews/assessments for Professional Engineer registration would be conducted by IEM.

6.3 IEM/BEM Graduate Examinations Bureau

The Bureau chaired by Engr. Prof. Dr. Syed Abdul Kader Aljunid, MIEM, PEng., continued to process applications to sit for Part 1, Part 2 and Part 3 of the IEM/BEM Graduate Examinations.

Notes to the financial statements**1. Principal activity**

The principal activity of the Institution is to promote and advance the science and profession of all aspects of engineering. There has been no significant change in the nature of this activity during the year.

2. Summary of significant accounting policies

The following accounting policies are adopted by the Institution and are consistent with those adopted in previous years.

(a) Basis of accounting

The financial statements of the Institution are prepared on the historical cost basis and in compliance with accounting policies adopted by the Institution.

(b) Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation.

Property, plant and equipment retired from active use and held for disposal are stated at the lower of net book value and net realisable value.

Depreciation

Freehold land is not amortised. The straight-line method is used to write off the cost of the assets over the term of their estimated useful lives at the following principal annual rates:

Freehold buildings	2%
Leasehold land and buildings	2%
Furniture and fittings	5% - 20%
Office equipments	10%
Library books	10%
Building renovation	5%

(c) Investments

Long term investment is stated at cost. An allowance is made when the Council are of the view that there is a diminution in its value which is other than temporary.

(d) Receivables

Receivables are initially recognised at their cost when the contractual right to receive cash or another financial asset from another entity is established.

Subsequent to initial recognition, receivables are stated at cost less allowance for doubtful debts.

Receivables are not held for the purpose of trading.

(e) Subscription in arrears

Subscription in arrears of one year and more and where, in the opinion of the Council, are no longer recoverable from its members are written off to the Statement of Income and Expenditure.

Cash and cash equivalents consist of cash on hand, balances and deposits with banks and highly liquid investments which have an insignificant risk of changes in value, net of bank balances held in trust.

(g) Payables

Payables are measured initially and subsequently at cost. Payables are recognised when there is a contractual obligation to deliver cash or another financial asset to another entity.

(h) Loans and borrowings

Loans and borrowings are stated at amortise cost with any difference between the cost and redemption value being recognized in the income statement over the period of the loans and borrowings using the effective interest method.

(i) Taxation

Tax on the surplus or deficit for the year comprises current and deferred tax. Income tax is recognised in the Statement of Income and Expenditure.

Current tax expense is the expected tax payable on the taxable income for the year, using tax rates enacted or substantially enacted at the balance sheet date, and any adjustment to tax payable in respect of previous years

Deferred tax is provided, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Temporary differences are not recognised for goodwill nor deductible for tax purposes and the initial recognition of assets or liabilities that at the time of the transaction affects neither accounting nor taxable profit. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantially enacted at the balance sheet date.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilized.

(j) Capital reserve fund

Fund raised from members for the purchase of property, plant and equipment as well as entrance and transfer fees received from members are capitalised as Capital Reserve Fund.

(k) Library fund

Enrollment fee received from corporate members for library membership of The Institution of Engineers, Malaysia and donation received from members or non-members for the library are capitalised as Library Fund.

2. Summary of significant accounting policies

The following accounting policies are adopted by the Education Fund and are consistent with those adopted in previous years.

(a) Basis of accounting

The financial statements of the Education Fund are prepared on the historical cost basis and in compliance with accounting policies adopted by the Education Fund.

(b) Plant and equipment

Plant and equipment are stated at cost less accumulated depreciation.

Plant and equipment retired from active use and held for disposal are stated at the lower of net book value and net realisable value

Depreciation

The straight-line method is used to write off the cost of the assets over the term of their estimated useful lives at the following principal annual rates:

Office equipment	10%
Furniture and fittings	10%
Computers	40%

(c) Other receivables

Other receivables are stated at cost less allowance for doubtful debts.

(d) Cash and cash equivalents

Cash and cash equivalents consist of cash on hand, balances and deposits with banks and highly liquid investments which have an insignificant risk of changes in value.

(e) Liabilities

Other payables are stated at cost.

(f) Recognition of income

Interest income

Interest income is recognised in the income statement as it accrues, taking into account the effective yield on the asset.

(g) Taxation

Tax on the surplus or deficit for the year comprises current and deferred tax. Income tax is recognised in the Statement of Income and Expenditure.

Current tax expense is the expected tax payable on the taxable income for the year, using tax rates enacted or substantially enacted at the balance sheet date, and any adjustment to tax payable in respect of previous years.

Deferred tax is provided, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Temporary differences are not recognised on the initial recognition of assets or liabilities that at the time of the transaction affects neither accounting nor taxable profit. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantially enacted at the balance sheet date.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised
