MALAYSIA HELD ON 19 APRIL 2008 AT IEM CONFERENCE HALL, BANGUNAN INGENIEUR,
PETALING JAYA AT 9.00 AM**

MEMBERS PRESENT – AS PER APPENDIX A

1.0 OPENING ADDRESS BY THE PRESIDENT

- 1.1 The President, Y.Bhg. Dato' Engr. Hj Keizrul bin Abdullah welcomed members present and called the 49th Annual General Meeting to order at 9:00 am. The President informed that the Annual General Meeting had to be held in Bangunan Ingenieur with the use of videoconferencing in three rooms as Dewan Tan Sri Mahfuz was not available. Dato' President informed members that there were Secretariat staff stationed in each of the rooms in the event any member wished to pose questions.
- 1.2 Before proceeding further with the Annual General Meeting, Dato' President requested members to observe one minute of silence as a mark of respect for the late Academician Tan Sri Engr. (Dr) JG Daniel who passed away on 16 September 2007.

2.0 CONFIRMATION OF MINUTES OF 48TH ANNUAL GENERAL MEETING HELD ON 20 APRIL 2007

- 2.1 Dato' President then went through the minutes which was included in pages 42 to 48 of the Annual Report inviting members to point out whether there were any mistakes in the recording. He also thanked Engr. Dr. Muhammad Fuad bin Abdullah for his assistance to translate the minutes in Bahasa Malaysia. The Bahasa Malaysia version was included in the Annual Report from pages 52 to 58.
- 2.2 There being no amendments raised, Engr. Chong Chin Meow (M02641) proposed that the minutes of the 48th Annual General Meeting held on 20 April 2007 be confirmed. The motion was seconded by Engr. Jagathisen s/o Siva Perumal (F05107) and was unanimously adopted by members present.

3.0 MATTERS ARISING

The Chairman then responded to the outstanding items raised at the 48th AGM and recorded in the minutes as published in the Annual Report from pages 42 to 48. The items were as follows:

3.1 Washington Accord

Page 45 and 45, item 6.2

The Annual General Meeting was informed that IEM had been proposing to the Board of Engineers, Malaysia that as the only professional body in the Engineering Accreditation Council (EAC), IEM should be the organisation to sign the Washington Accord on behalf of Malaysia. However, the Ministry of Works had preferred that the BEM should be the signatory.

4.0 ANNUAL REPORT FOR SESSION 2007/2008

The Chairman proceeded to invite the Hon Secretary to present the 49th Annual Report from pages 65 to 106. The Hon Secretary, Engr. Oon Chee Kheng informed members that IEM had a very active year in 2007 and listed out the latest developments as follows:

4.1 Council and Excomm

The Annual General Meeting was informed that for the session 2007/2008, both the Council and Excomm had more meetings than normal to deal with the affairs of the Institution in particular the purchase of the new building. A special note of appreciation was extended to YBhg Datuk Engr. Hj Ahmad Zaidee bin Laidin on behalf of the Ad Hoc Committee which he chaired that was instrumental in IEM's successful bid for the building.

4.2 Purchase of New Building

The Hon Secretary added that the building across the road from the existing Bangunan Ingenieur was purchased for RM13.5 million. IEM paid the initial 10% using its own funds while the balance of RM12.15million was paid via a bank loan from Alliance Bank Berhad.

He further informed the meeting that a Fund Raising Committee under the Chairmanship of Hon Treasurer, YBhg Dato' Engr Abu Hashim bin Abdul Ghani was formed in the year 2007 to solicit donations to settle the bank loan early so as not to burden future generations of members.

A note of appreciation was recorded to IEM members as well as private organisations that had donated towards the IEM Building Fund which stood at RM305,000.00.

4.3 Membership

Page 65 and 66 :

The AGM noted the membership record as follows:-

Membership Number as of 1.1 2007	16,789
Corporate members	8,434
Graduate members	5,849
Student members	2,457
Other grades	49

The breakdown of the membership strength by the various disciplines was also noted.

The AGM was informed that during the session, membership drive activities were held and with the concerted effort of Committee Members as well as members who served as speakers and counsellors, the increase in membership was the highest since year 2000. Student Membership achieved a record 58.2% increase compared to the previous session.

Members were also informed that in an effort to simplify the admission process, a new set of application forms was introduced for the various grades which could be downloaded from the IEM website. A major change could be found in the application forms for MIEM where the number of Seconders was reduced from three to one.

4.4 Latest Developments

- 4.4.1 A new curriculum and syllabus had been drafted for the localised examination which was expected to be implemented from May 2009.

The new curriculum took into consideration the global trend of Outcome Based Education with emphasis on programme and subject outcomes. A structured Industrial Training would also be introduced into the examination with emphasis on soft skills where candidates would be required to write and present reports on project works undertaken.

- 4.4.2 IEM was appointed by the Board to conduct the Professional Assessment Examination by the Board with effect from 1 January 2007.

- 4.4.3 In addition, the Standing Committee on Examinations and Training would also be conducting a survey on the quality of recent Graduate Engineers in an attempt to ascertain whether the quality had in fact deteriorated.

- 4.4.4 Two major conferences were held in 2007 as follows :

3rd World Engineering Congress (WEC) - 5th – 9th August 2007 at Gurney Hotel and Resort, Penang
475 participants attended the conference.

Southeast Asian Geotechnical Conference (SEAGC) - 8th -11th May 2007 at Sheraton Hotel, Subang Jaya
498 participants attended the conference.

- 4.4.5 The Hon Secretary also informed the AGM that all the sixteen Technical Divisions representing the various disciplines had put in great effort to plan or organise more activities in order to assist members to accumulate CPD hours to satisfy the requirement of the BEM.

4.4.6 Visitors from Overseas

The AGM was informed that during the session, IEM played hosts to visitors from:

The Institution of Structural Engineers, UK
Comsoc, IEEE
American Society on Heating, Refrigeration and Air-conditioning Engineers, USA
Chinese Institute of Engineers (Chinese Taipei)

4.4.7 IEM in the International Arena

The AGM was further informed that IEM was once again appointed as Secretariat of the ASEAN Federation of Engineering Organisations (AFEO), a position held since 1998. IEM's appointment as Secretariat of the ASEAN Engineer Register was also extended. Engr. Tan Yean Chin was appointed as Secretary General of AFEO while Engr. Rocky HT Wong was appointed as Head Commissioner for the ASEAN Engineer Register (AER).

IEM was also appointed as the permanent Secretariat of Federation of Engineering Institutions in Southeast Asia and the Pacific (FEISEAP) in 2007.

IEM Past President, Engr. Dr. Gue See Sew was also appointed as Chairman of the APEC/EMF International Engineer Registers.

IEM also headed the Brand Malaysia ETI (Engineering Technology and Innovation) Services cluster at the exhibition organised by MATRADE in Sharjah, UAE. IEM led a delegation of 23 exhibitors in the categories of:

- Facilities & Asset Management
- Systems Integration
- Environmental Engineering & Services
- Water & Wastewater Treatment
- Green Energy and New Energy

4.4.8 Engineering Hall of Fame

The AGM was further informed that the Guidelines had been finalised and published in the IEM Bulletin and posted on IEM website. Announcements had also been made in the Bulletin and website to invite nominations. Till date, a total of 6 nominations had been received and would be studied by the Awards Committee.

4.4.9 Certificate of Completion and Compliance (The Uniform Building Bylaw 1984)

BEM had appointed IEM and its Branches as the sales office for the Form F / F1. Conditions of sales are as follows:

- Must be a registered PE (Civil & Structural)
- Only a maximum of 10 copies can be purchased at any one time
- Purchase Form must be complete with PE stamp and signature.
- Each set of form is priced at RM30.00

4.4.10 Enhancing the One Stop Centre (OSC) Decisions

IEM forwarded a Memorandum to the Government to consider appointing a representative from IEM as one of the OSC Committee Members at each Local Authority in Peninsular Malaysia.

4.5 The President then invited comments or questions from members.

4.5.1 Engr. Sivalingam a/l Veluppillai (M09546) commented that with the introduction of the requirement for Continuing Professional Development (CPD), IEM via its Technical Divisions had been very supportive by actively organising a lot of technical talks which were very useful and beneficial to members. He had however voiced his dissatisfaction on the imposition of the RM10.00 compulsory donation to the Building Fund for attendance at those talks. He pointed out that he was not against the idea of charging RM10.00 but felt that it should not have been made mandatory.

Dato' President voiced his consensus on the issue and apologised for the way the message had been put across to members. He further explained that the rationale for imposing the charge was to defray some of the administrative costs incurred by IEM to organise the activities and any surplus after deducting the administrative expenses would be channelled to the IEM Building Fund.

Engr. Jagathisen s/o Siva Perumal (F05107) commented that prior to the implementation of the CPD, not many members attended the talks or visits arranged by IEM. He felt that the improved attendance would serve as a great encouragement to speakers.

IEM Honorary Treasurer YBhg, Dato' Engr. (Dr.) Abu Hashim bin Abd Ghani further clarified that he had been assigned to look into ways and means to raise funds for the new building and the RM10.00 charge was his idea to defray some of the expenses incurred by IEM.

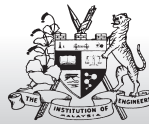

Engr. Santha Kumaran a/l Erusan @ Krishnan (M18975) felt that if IEM really needed to charge the members to sustain the activities, then it should proceed.

Engr. Tham Kum Weng (F01513) felt that if IEM was really burdened with the expenses incurred to organise those activities, then steps should be taken to reduce the costs such as not serving refreshments. He agreed with the explanation that IEM needed to impose the RM10.00 charge to defray the costs incurred as IEM should not require other members not attending the activities to subsidise those who attend regularly. Nevertheless, he felt that if some members genuinely cannot afford to pay, then they should be exempted.

Engr. Looi Hip Peu (F02625) pointed out that if the activities were provided for members without any charges, many would not appreciate the work done to make those activities available to them.

Dato' President summed up the comments by suggestion that the IEM Council relook at the policy. If there was a need to impose a charge, then the portion that was needed to defray the costs could be made compulsory while the balance would be donated to the Building Fund but made non-compulsory for members to pay.

4.5.2 Engr. Awangku Hidup Awangku Hosain (F03053) commented that by having 20 meetings in the last session, the Executive Committee must have been working very hard. Nevertheless, he felt that there was a need to ensure that there was good attendance for the meetings where solid decisions were made.

- 4.5.3 Engr. Tham Kum Weng (F01513) pointed out that the Honorary Secretary did not mention the IEM representatives to outside bodies in his report and he had noticed that 30% of those meetings indicated attendance of 0/0. He enquired whether those Committees were still in existence. Dato' President concurred with the comment and indicated that Secretariat would be requested to check whether the Committees were still active at the start of each session. If no longer active, it should be removed from the report.
- 4.5.4 Engr. A W Shaik (M08587) pointed out that there had been numerous comments put forth on the shortage of engineers and the need to have more engineers and yet in the IEM Bulletin, there were advertisements/announcements about migrating to Australia. He added that there was a need to enhance or improve the image of engineers indicating that the image of engineers was very low. He pointed out that there was a need to spend some funds to upgrade the image of engineers citing the example that in some countries, engineers were considered the pillars of the nation.
- Engr. Tan Hoe Tim (F00692) commented that he had been in practise for 40 years and he found that there was a dire need to promote the value of engineers rather than concentrating on the CPD. One good example cited was the low salary scale for engineers.
- 4.5.5 Engr. CMM Aboobucker (M13942) noted that the report indicated a high number of new Student Members being recruited and thanked the Committee for the good work done. However, he pointed out that IEM had been very slow in processing and cited the example of his son's application where there was no news from IEM for six months. Dato' Engr. Abdul Rashid bin Maidin informed the AGM that the Standing Committee on Qualifications and Admissions had been putting in place procedures to expedite processing and applications. He further informed that the new process aimed to ensure that processing would be complete and applicants notified within one week.
- 4.5.6 Engr. Ponimin bin Tayat (M06430) highlighted that IEM should write to the government to request for government jobs to be on open tender or at least 70% of it. He also pointed out that engineers were undercutting each other and proposed that IEM and BEM should ensure that engineers adhere to the BEM Scale of Fees.
- 4.5.7 Engr. Sivalingam a/l Velupillai (M09546) commended the IEM Council for the good job done in the video conferencing in the Boardroom and ISM room citing that the previous attempt was not as good as some members were at the penthouse which was on another floor.
- 4.5.8 Engr. Looi Hip Peu (F02625) voiced his concern on the bank loan of RM12.15 million for the new building when the contribution received till date was only RM300,000.00. He enquired on the IEM plans on how to continuously sustain the repayment. Dato' President informed the AGM that an Action Plan had been prepared and fund raising activities would be organised to settle the loan as early as possible.
- 4.5.9 Engr. Khew Swee Lian (M22716) pointed out some errors in the Annual Report such as:
- The title was not correct on the content page of the electronic version – The covershould read as ANNUAL REPORT and not ANNUNAN REPORT.
 - There were repetitions on page 25.
 - The translation on page 26 was also not correct. Pasukan Bertindak "Isu-isu Berkaitan Dengan Perlupusan Sampah" is not the correct translation for Position Paper Committee on "Issues related to the Use of Incinerators"

He commented that IEM being a professional body would need to ensure that the report produced was of good quality. Dato' President thanked Engr. Khew for his comments and agreed that there was a need to ensure no errors in the IEM Annual Report in future.

- 4.6 Engr. Sivalingam a/l Velupillai (M09546) proposed that the AGM receive the report and the motion was seconded by Engr. CMM Aboobucker (M13942).

- 5.7.1 Engr. Sivalingam a/l Veluppillai (M09546) pointed out that there was not much expenses incurred on office facilities. (Dr.) Abu Hashim bin Abd Ghani informed that he would be looking into this area.
- 5.7.2 Engr. Vivekananda a/l Murugesu (M05808) enquired on the renovation costs that would be incurred by the new tenant and he was reassured by YBhg. Dato' Engr. (Dr.) Abu Hashim bin Abd Ghani that the new tenant would be responsible for their renovation. He also mentioned that the new tenant had a similar structure as the previous tenant, therefore renovations required may not be too extensive.
- 5.7.3 Engr. Wong Chee Fui (M20903) enquired on the performance of IEM Training Centre Sdn Bhd commenting that there was a need to include the accounts into the Annual Report. 4.4.10 Mempertingkatkan Keputusan Yang dibuat oleh Pusat Sehent (OSC)

IEM telah menyerahkan sebuah Memorandum kepada pihak Kerajaan untuk menimbang pelantikan seorang wakil dari IEM sebagai ahli Jawatankuasa OSC di setiap Pihak Berkuasa Tempatan Semenanjung Malaysia.

4.5 Dato' Yang Dipertua kemudiannya menjemput ahli-ahli untuk mengemukakan komen atau soalan.

- 4.5.1 Engr. Sivalingam a/l Veluppillai (M09546) memberi komen bahawa setelah diperkenalkan keperluan bagi Pembangunan Profesional Berterusan (CPD) IEM menerusi Bahagian-bahagian Teknikal telah berperanan aktif dengan menganjurkan ceramah teknikal yang amat berguna dan berfaedah kepada ahli-ahli. Namun begitu beliau menyuarakan rasa tidak puas hati di atas derma wajib sebanyak RM10.00 untuk Tabung Bangunan yang dikenakan ke atas ahli yang menghadiri ceramah tersebut. Beliau memberitahu, beliau tidak membantah bayaran RM10.00 tersebut tetapi berpendapat ia tidak sepatutnya diwajibkan.

Dato' Yang Dipertua menyuarakan persetujuan terhadap isu tersebut dan meminta maaf di atas cara mesej tersebut diberitahu kepada ahli. Beliau menerangkan bahawa rasional mengenakan bayaran adalah untuk membiayai sebahagian daripada kos pentadbiran yang terpaksa ditanggung oleh IEM untuk menganjurkan aktiviti dan selebihnya akan disalurkan kepada Tabung Bangunan IEM setelah ditolak perbelanjaan pentadbiran.

Engr. Jagathisen s/o Siva Perumal (F05107) memberi komen bahawa sebelum pelaksanaan CPD, tidak ramai ahli yang menghadiri ceramah atau lawatan yang dianjurkan oleh IEM. Beliau menyatakan peningkatan jumlah kehadiran seharusnya menjadi sesuatu yang menggalakkan kepada para penceramah.

Bendahari Kehormat IEM, Y.Bhg. Dato' Engr. (Dr.) Abu Hashim Abd Ghani seterusnya menerangkan bahawa beliau telah ditugaskan untuk mencari jalan dan cara bagi mengumpul dana bagi bangunan baru tersebut dan bayaran sebanyak RM10.00 tersebut merupakan cadangan beliau bagi membiayai sebahagian daripada perbelanjaan yang ditanggung oleh IEM.

Engr. Santha Kumaran a/l Erusan @ Krishnan (M18975) berpendapat, jika IEM betul-betul perlu untuk mengenakan bayaran kepada ahli untuk membiayai aktiviti yang dijalankan, ianya patut diteruskan.

Engr. Tham Kum Weng (F01513) berpendapat, jika IEM betul-betul dibebani dengan perbelanjaan yang ditanggung untuk menganjurkan aktiviti tersebut, langkah perlu diambil untuk mengurangkan kos seperti tidak menyajikan hidangan ringan. Beliau bersetuju dengan penerangan yang IEM perlu mengenakan bayaran RM10.00 untuk membiayai kos kerana dengan itu IEM tidak membebani ahli yang tidak menghadiri aktiviti untuk memberi subsidi kepada ahli yang sering menghadiri aktiviti. Namun begitu, beliau berpendapat ahli yang memang tidak berkemampuan patut dikecualikan daripada membayar.

Engr. Looi Hip Peu (F02625) menyatakan bahawa jika aktiviti yang disediakan untuk ahli-ahli tidak dikenakan sebarang bayaran, ramai yang tidak menghargai usaha yang dijalankan untuk menyediakan aktiviti tersebut kepada mereka.

Dato' Yang Dipertua membuat kesimpulan ke atas kesemua komen yang diberikan dengan mengesyorkan Majlis IEM untuk mengkaji semula polisi tersebut. Jika bayaran perlu dikenakan, bahagian yang diperlukan untuk membiayai kos wajib dikenakan, manakala selebihnya yang akan didermakan kepada Tabung Bangunan tidak diwajibkan.

- 4.5.2 Engr. Awangku Hidup Awangku Hosain (F03053) memberikan komen bahawa dengan mengadakan 20 mesyuarat dalam sesi yang terakhir, Jawatankuasa Eksekutif tentunya telah berkerja keras. Namun beliau berpendapat adalah perlu untuk memastikan kadar kehadiran yang baik bagi mesyuarat di mana keputusan-keputusan yang kukuh dibuat.

- 4.5.3 Engr. Tham Kum Weng (F01513) memberitahu bahawa Setiausaha Kehormat tidak menyebut berkenaan wakil IEM kepada badan-badan luaran di dalam laporannya dan di dalam pengamatan beliau, 30% daripada mesyuarat tersebut menunjukkan kehadiran 0/0. Beliau bertanya samada Jawatankuasa-jawatankuasa tersebut masih wujud. Dato' Yang Dipertua sependapat dengan komen tersebut dan menyatakan bahawa Sekretariat akan diminta menyemak samada Jawatankuasa-jawatankuasa tersebut masih aktif pada permulaan setiap sesi. Jika ianya tidak lagi aktif, ia sepatutnya dikeluarkan dari laporan.

4.5.4 Engr. A W Sheik (M08587) menyatakan ada berbagai komen yang telah diberikan tentang kekurangan jurutera dan keperluan bagi mendapatkan lebih ramai jurutera, namun di dalam Buletin IEM, terdapat berbagai iklan dan pengumuman tentang penghijrahan ke Australia. Beliau menambah tentang perlunya meningkatkan atau memperbaiki imej jurutera yang menurut beliau adalah sangat rendah buat masa ini. Menurut beliau, adalah perlu untuk membelanjakan sedikit dana untuk menaikkan imej jurutera seperti yang berlaku di negara lain di mana jurutera dianggap sebagai tunggak negara.

Engr. Tan Hoe Tim (F00692) menyatakan beliau telah bekerja selama 40 tahun dan mendapati ada keperluan yang mendesak untuk meningkatkan nilai jurutera berbanding dengan penumpuan ke atas CPD. Satu contoh yang diberikan adalah skala gaji yang rendah untuk jurutera.

4.5.5 Engr. CMM Aboobucker (M13942) mendapati laporan menunjukkan bilangan kemasukan Ahli Pelajar yang tinggi dan mengucapkan terima kasih kepada Jawatankuasa di atas usaha yang dilakukan. Bagaimanapun, beliau menyatakan bahawa proses kemasukan IEM adalah lambat dan memberi contoh di mana permohonan anaknya tidak menerima apa-apa berita dari IEM untuk tempoh enam bulan. Y.Bhg. Dato' Engr. Abdul Rashid Maidin memaklumkan bahawa Jawatankuasa Tetap Kelayakan dan Kemasukan telah meyiapkan prosedur untuk mempercepatkan proses permohonan. Beliau seterusnya memberitahu prosedur baru itu adalah untuk memastikan proses permohonan dapat dilaksanakan serta pemohon diberi maklum dalam masa satu minggu.

4.5.6 Engr. Ponimin bin Tayat (M06430) menekankan bahawa IEM sepatutnya memohon kepada kerajaan supaya kerja-kerja bagi pihak kerajaan dapat diperolehi melalui tender terbuka atau sekurang-kurangnya 70% daripadanya. Beliau juga menekankan bahawa para jurutera berlumba-lumba menurunkan harga bagi bersaing sesama mereka dan mengesyorkan supaya IEM dan BEM memastikan para jurutera mematuhi Skala Yuran BEM.

4.5.7 Engr. Sivalingam a/l Veluppillai (M09546) memuji Majlis IEM di atas usaha baik yang telah dijalankan menerusi sidang video di Bilik Lembaga dan bilik ISM sambil mengulas bahawa percubaan yang lalu tidak begitu berjaya kerana sebahagian ahli berada di aras emper yang terletak di tingkat yang berlainan.

4.5.8 Engr. Looi Hip Peu (F02625) menyatakan kebimbangannya di atas pinjaman bank sebanyak RM12.15 juta bagi membeli bangunan baru sedangkan sumbangan yang diterima setakat ini hanya RM300,000.00. Beliau bertanya bagaimana caranya IEM bercadang untuk terus membayar pinjaman tersebut. Dato' Yang Dipertua memberitahu MAT bahawa satu Pelan Tindakan sedang disiapkan dan aktiviti mengumpul dana akan dijalankan bagi melangsaikan pinjaman secepat mungkin.

4.5.9 Engr. Khew Swee Lian (M22716) menekankan beberapa kesilapan di dalam Laporan Tahunan seperti:

- Tajuk tidak betul di dalam mukasurat isi kandungan iaitu sepatutnya "cover Annual Report" dan bukannya "cover ANNUAN REPORT".
- Terdapat ulangan dalam muka surat 25.
- Penterjemahan di muka surat 26 juga tidak betul. Pasukan Bertindak "Isu-isu Berkaitan Dengan Perlupusan Sampah" bukanlah terjemahan yang betul "Position Paper Committee on Issues related to the use of Incinerators"

Beliau memberi komen bahawa IEM selaku badan profesional mestilah memastikan laporan yang diterbitkan berkualiti baik. Dato' Yang Dipertua mengucapkan terima kasih Engr. Khew di atas komen-komennya dan bersetuju perlunya memastikan tiada kesilapan di dalam Laporan Tahunan IEM di masa-masa akan datang.

4.6 Engr. Sivalingam a/l Veluppillai (M09546) mencadangkan MAT menerima laporan tersebut dan disokong oleh Engr. CMM Aboobucker (M13942).

5.0 AKAUN BAGI TAHUN BERAKHIR 31 DISEMBER 2007

5.1 Dato' Yang Dipertua kemudian menjemput Bendahari Kehormat, Y. Bhg. Dato' Engr. (Dr.) Abu Hashim bin Abd Ghani untuk membentangkan Penyata Kewangan Institusi Jurutera Malaysia bagi tempoh 1 Januari 2007 hingga 31 Disember 2007.

5.2 Y.Bhg. Dato' Engr. Abu Hashim memaklumkan bahawa untuk tahun 2007, Institusi telah membuat lebih sebanyak RM445,914.00 berbanding RM153,237.00 pada tahun 2006.

Sebab utama penyumbangan kepada lebih adalah seperti berikut:

Pendapatan daripada seminar dan persidangan	RM 172,126
Pendapatan daripada khidmat sekretariat	RM 42,168
Pendapatan daripada aktiviti Bahagian Teknikal	RM 314,940
Pendapatan daripada kad kredit	RM 112,047
Pendapatan daripada sewa	RM 340,940

5.3 Jumlah pendapatan bagi tahun 2007 adalah sebanyak RM3,380,243.00 yang mana lebih kurang 65% adalah daripada yuran tahunan dan selebihnya dari punca pendapatan lain.

5.4 Terdapat pertambahan pendapatan sekitar RM733,605.00 pada tahun 2007 berbanding dengan tahun 2006. Ini adalah disebabkan oleh pertambahan pendapatan dari aktiviti anjuran Bahagian Teknikal dan juga yuran. Perbelanjaan pada tahun 2007 berjumlah RM 2,852,561.00 di mana 47% adalah untuk penggajian staf, 33% untuk perbelanjaan pentadbiran dan selebihnya adalah untuk perbelanjaan lain termasuk subsidi untuk Cawangan.

Perbelanjaan bagi tahun 2006 adalah RM 2,451,321.00.

- 5.5 MAT juga dimaklumkan bangunan baru telah dibeli dengan IEM membayar 10% dari dananya sendiri dan selebihnya sebanyak RM12.15 juta melalui pinjaman dari Alliance Bank Berhad dengan pembayaran balik dalam tempoh 15 tahun pada kadar pembayaran semula tahunan seperti berikut:

Tahun pertama	RM 91,402.00
Tahun kedua	RM 106,429.00
Tahun ketiga dan seterusnya	RM 111,032.00

- 5.6 Bendahari Kehormat juga memberitahu MAT bahawa semasa kini, lebih kurang 85% bangunan baru tersebut disewakan kepada The International College of Health Sciences dengan sewa bulanan sebanyak RM85,000.00. Selebihnya sebanyak 15% dikekalkan untuk kegunaan IEM sendiri.

MAT juga diberitahu penyewa telah menyatakan hasrat untuk mengosongkan bangunan pada pertengahan Mei 2008 tetapi penyewa baru telah didapati dengan terma dan syarat sewaan yang sama.

- 5.7 Selepas pembentangan dari Y.Bhg. Dato' Engr. (Dr.) Abu Hashim, Yang Dipertua mempelawa pertanyaan daripada para hadirin.
- 5.7.1 Engr. Sivalingam a/l Velupillai (M09546) memberitahu tidak banyak perbelanjaan dikeluarkan untuk kelengkapan pejabat. Beliau berpendapat IEM patut berbelanja untuk mempertingkatkan kelengkapan pejabat bagi menyediakan persekitaran yang lebih efisien untuk kakitangan. Y.Bhg. Dato' Engr. Abu Hashim memberitahu bahawa beliau akan menyusuli perkara tersebut.
- 5.7.2 Engr. Vivekananda a/l Murugesu (M05808) bertanya berkenaan kos pengubahsuaian yang perlu dengan termasuk penyewa baru, namun beliau diberi jaminan oleh Y.Bhg. Dato' Engr. (Dr.) Abu Hashim bahawa pihak penyewa adalah bertanggungjawab terhadap kos kerja pengubahsuaian yang mereka laksanakan. Beliau juga menyebut bahawa penyewa baru tersebut mempunyai struktur operasi yang sama dengan penyewa sebelumnya, oleh itu pengubahsuaian adalah dijangka minimum.
- 5.7.3 Engr. Wong Chee Fui (M20903) bertanya mengenai prestasi IEM Training Centre Sdn Bhd dan memberi komen tentang perlunya memasukkan akaun berkenaan ke dalam Laporan Tahunan. Beliau juga bertanya tentang perlunya menggabungkan akaun IEM Training Centre Sdn Bhd ke dalam akaun IEM. Yang Dipertua maklumkan bahawa IEM Training Centre Sdn Bhd merupakan syarikat sendiri berhad yang didaftarkan dengan SSM. Namun begitu, MAT bersetuju untuk mempertimbangkan samada akaun patut dipaparkan di lama web IEM untuk makluman ahli.
- 5.7.4 Memandangkan tiada lagi soalan daripada ahli yang hadir, Engr. Tan Seong Lim (M14398) mencadangkan Penyata Kewangan Tahunan bagi Institusi diluluskan. Cadangan tersebut disokong oleh Engr. Sivalingam a/l Velupillai (M09546) dan MAT meluluskan Penyata Kewangan bagi tahun berakhir 31 Disember 2007.
- 5.8 Y.Bhg. Dato' Engr. (Dr.) Abu Hashim bin Abd Ghani kemudian telah membentangkan Penyata Kewangan Tabung Pendidikan IEM bagi tahun berakhir 31 Disember 2007.

MAT dimaklumkan bahawa lebih sebanyak RM53,800.00 adalah hasil faedah Deposit Tetap. Dimaklumkan juga, dana di dalam Tabung Pendidikan IEM juga merupakan lebih hasil dari derma yang lalu.

Memandangkan tiada soalan atau pertanyaan, Engr. Dr. Ahmad Anuar bin Othman (M13148) mencadangkan Penyata Kewangan Tabung Pendidikan IEM diluluskan. Cadangan itu telah disokong oleh Engr. Jagathisen s/o Siva Perumal (F05107). MAT sebulat suara meluluskan Penyata Kewangan seperti dibentangkan.

Dato' Yang Dipertua maklumkan MAT bahawa terdapat dua permintaan dibuat oleh ahli mengenai isu ini. Pertama adalah daripada Engr. Tham Kum Weng (F01513) yang bertanya berkenaan prosedur lazim, kriteria, cara dan tempoh masa bagi penerimaan artikel, surat, kertas dan komen di dalam Buletin IEM

2.4 A total number of 4,636 members were in arrears of subscription for the year 2008. The total arrears in subscription for this year alone was recorded at RM383, 911.5.00. The Council would have to look into deleting these names from the membership register if the arrears were not settled by mid 2009.

2.5 For the session a total of 59 members were reinstated. The details are as follows:

Fellow	- 1
Member	- 25
Graduate	- 22
Student	- 1

3 THE COUNCIL AND THE EXECUTIVE COMMITTEE

3.1 For the session, a total of six Council meetings had been held of which five were the usual Council meetings with an Extraordinary Council meeting arranged on 15th December 2008 to look into the nomination for the post of Deputy President for session 2009/2010. A total of 19 Executive Committee (Excomm) meetings were held during this session to manage the affairs of the Institution in accordance with the Constitution and Bylaws.

I wish to thank all members of the Council, Executive Committee, Standing Committees, Technical Divisions, Sub Committees, AdHoc Committees and other committees for the participation, contribution and support in the activities of the Institution in the furtherance of its objectives to promote the science and profession of engineering in the spirit of a learned society.

I take this opportunity to thank the number of members who have voluntarily offered their services to represent the Institution in various external bodies and organizations.

4. STANDING COMMITTEE ON FINANCE

4.1 The Standing Committee chaired by the Deputy President, Dato' Engr Prof Dr Chuah Hean Teik continued with the role of monitoring the financial management of the properties and affairs of the IEM. Regular meetings were held on every 3rd Wednesday of the month.

4.2 Annual Subscription

The financing of the operating expenditure of the Institution continued to depend heavily on the payment of annual subscriptions which made up approximately 70% of the total annual income of the Institution. The income derived from activities of IEM was also used to partially finance the repayment of the term loan taken for the purchase of the new building. The rental income from the new building was totally taken up by the repayment of the term loan amounting to RM103,000 per month.

In accordance with the Bylaws, the Institution sent out one general notice and one reminder (final reminder by A.R Registered postage) to promptly remind members to pay their annual subscriptions.

Many members had however been conscientiously paying their subscriptions promptly enabling IEM to achieve 81% collection for the year 2008. IEM wished to take this opportunity to thank all members who had promptly settled their subscriptions for 2008.

As at the end of the financial year 2008, there were however still 3,351 members in arrears of subscription for 2008.

4.3 Administrative Expenses

Every concerted effort was made to control the rate of increase of expenditure through more effective budgetary control measures without seriously impairing the provision of Secretariat services to all grades of membership. Amongst the measures taken included sending reminders for meeting via sms instead of telephone calls, sending minutes of meetings and notices via e-mail as well as printing of the annual report and IEM directory in CD form to reduce postage cost.

This had resulted in the expenses being controlled at 87% of the income – compared to 92% in 2007 - despite having to pay interest on the loan for the new building.

4.4 ISO 9001:2002

The ISO Surveillance Audit by SIRIM QAS was carried out in March 2008 and re-certification was granted. Internal Audits were continuously conducted to ensure that the staff performed their duties/works in compliance to the procedures.

4.5 Bangunan Ingenieur

The ground floor of Bangunan Ingenieur continued to be rented to Pizza Hut with the IEM Library maintained at the Basement. Secretariat was housed at the 1st Floor with the 2nd Floor and Penthouse utilised for monthly meetings and activities.

During the year, the surau was refurbished to be more conducive. Plans were underway to renovate the existing IEM Secretariat to provide more space to house an increasing Secretariat staff strength to cope with the increased membership and activities.

4.6 Wisma IEM

The IEM Council had accepted the proposal to name the new building purchased by IEM in November 2007 as Wisma IEM. As the building was purchased by way of a bank loan, IEM currently continue to rent out approximately 85% of the building to UCI Education Sdn Bhd, operating as a college for nursing as well as other academic courses.

IEM would be renovating the remaining area to house the IEM activities. The renovation was expected to commence in February 2009 and to be completed in time for the Annual General Meeting on 18th April 2009.

4.7 Ad Hoc Committee on Fund Raising

This Ad Hoc Committee continued to be chaired by the Hon Treasurer, Dato' Engr Abu Hashim Abd Ghani and was tasked with the responsibility to look into ways and means to raise funds to settle the loan on the new building early.

Currently, the Committee had through donations from members and private organizations raised approximately RM880,416.00 in cash. Contributions in kind were also received from BlueScope Lysaght Sdn Bhd who provided the roofing materials to repair the roof, Acumen Marketing Sdn Bhd, Chan Peng Light Fittings Sdn Bhd and Media Network Lighting Services Sdn Bhd who jointly provided light fittings for the three lecture rooms and auditorium and Digistar who contributed the PA system for the auditorium as well as Technitus Engineering Sdn Bhd, Enhance Systems Engineering Sdn Bhd and Smartech Sales & Service Sdn Bhd for contributing the air-conditioners for the new building.

4.8 Sub-Committee on Human Resources

This Sub-Committee looked into staff matters and was chaired by the Hon. Secretary, Engr Assoc Prof Dr Jeffrey Chiang Choong Luin for this session. Meetings were regularly to deal with matters relating to Human Resource of Secretariat.

In order to ensure that the Secretariat staff members were well equipped to handle various matters with regard to the operations of the Institution efficiently, Secretariat staff members were sent to attend training programmes identified by the Sub Committee. Office equipments were also upgraded to improve the efficiency of the Secretariat staff. To increase the efficiency of the Secretariat, more experienced staff members were recruited in 2008.

4.9 Sub-Committee on IEM Infrastructure

This Sub-Committee was chaired by the Hon. Treasurer, Y.Bhg. Dato' Engr Abu Hashim Abd Ghani. The Sub Committee played an important role in monitoring not only the maintenance of Bangunan Ingenieur but also other facilities such as usage of the meeting rooms, security system of IEM, fire protection, ICT computerisation and networking as well as the general facilities.

The Sub-Committee was also given the task of looking into the renovations as well as maintenance of the new building in preparing for IEM activities.

4.10 Sub-Committee on IEM Investment

This Sub-Committee was chaired by the Hon. Treasurer, Dato' Engr Abu Hashim Abd Ghani. The Sub Committee now played an important role in monitoring not only the maintenance of Bangunan Ingenieur but also that of the new Wisma IEM including the planned renovation. The function of the Committee also covered other facilities such as usage of the meeting rooms, security system of IEM, fire protection, ICT computerisation and networking as well as the general facilities.

4.11 Ad Hoc Committee on Review of the Incentive Account Guidelines

The Ad Hoc Committee chaired by Engr. Lee Weng Onn was given the task of reviewing the guidelines on the utilising of funds from the Incentive Account of the various Technical Divisions. The Committee completed their task in June 2008 and the guideline drafted was approved by Excomm for implementation with effect from 1st August 2008.

6.4 Sub-Committee on Log Book

The responsibility of the Sub-Committee chaired by Engr. Gunasagaran Kristnan was to check and verify the log books submitted by the Graduate Members as well as to ensure that the submission on their practical experience is complete with the endorsement of the Mentor. A total of 98 log books were endorsed in year 2008.

The Sub Committee also organized a Refresher Briefing Session with the Mentors in 2008. Some important issues taken up during the session were:

- when mentoring, what is the extent of the Mentor's responsibility? Is it only to guide the Mentee or is it the duty of the Mentor to assess whether the experience gained by the Mentee is adequate in terms of quality.

From the feedback received, the Sub Committee would be looking into revising the Guidelines for Mentors as well as redefine the role of the Mentor. As a start, the Committee had included a termination clause in the event the Mentor wish to terminate his appointment. A disclaimer would also be included into the logbook that although having undergone the logbook and experience is satisfactory to the Mentor, the graduate is not guaranteed to pass the Professional Interview. Candidates would be requested to sign an Indemnity Form to indemnify the Mentors.

In 2008, the Training Board continued their on-site evaluation of training programmes approved for CPD hours to ensure that the programmes conducted were consistent with the documents submitted.

The IEM is also a Certifying Body of the Board of Engineers, Malaysia and the Training Board accredits programmes conducted by Approved Training Providers and issues CPD hours for approved programmes.

The Training Board also organized two sessions to solicit feedback from members pertaining to pupillage scheme.

The first was a Colloquium on "Challenges in Training Engineers a Priori to Qualifying to sit for Professional Interview Examination" held on 10th May 2008 and a Dialogue "Continuing Professional Development & You - An Intermittent Review on 2nd August 2008.

The Committee is now studying the feedback compiled as follows:

- i. There is a need to engage the Graduate Engineers as early as possible.
- ii. IEM to carry out a Registry of Graduate Engineers undergoing training. The Registry will be something like the Mentor Scheme as it is compulsory to tackle the problems right at the start. With the registry, IEM would be able to guide them early.

Gunasagaran Kristnan took on the task of looking into the possibility of introducing a pupilage scheme or training for young engineers as it was noted that these graduate engineers may not be “industry ready” upon graduation.

It was felt that there is a need to provide a proper training scheme to the young graduates in order for them to be more specialised and articulate in terms of their career and engineering profession. It was also commented that IEM should play a lead role to introduce the pupilage scheme to assist these young graduate engineers and also to outreach to the employers and the public.

The Committee had formed a sub group for each of the four major disciplines in Civil, Electrical, Mechanical and Chemical. The sub groups have been tasked to:

- i. Establish the conceptual scope for each discipline.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgment, including the assessment of risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the Institution's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Institution's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Council, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Other Matters

This report is made solely to the members of the Institution and for no other purpose. We do not assume responsibility to any other person for the content of this report.

In our opinion, the financial statements have been properly drawn up in accordance with accounting policies adopted by the Institution as to give a true and fair view of the financial position of the Institution as of 31 December 2008 and of their financial performance and cash flows for the year then ended.

Notes to the financial statements

The Institution of Engineers, Malaysia is an Institution and domiciled in Malaysia. The address of the principal place of business of the Institution is as follows:

Principal place of business:

Bangunan Ingenieur,
Lot 60/62
Jalan 52/4 Peti Surat 223
46720 Petaling Jaya
Selangor Darul Ehsan

The financial statements were approved and authorised for issue by the Council of the Institution on 16 March 2009.

1. Principal activity

The principal activity of the Institution is to promote and advance the science and profession of all aspects of engineering. There has been no significant change in the nature of this activity during the year.

2. Summary of significant accounting policies

The following accounting policies are adopted by the Institution and are consistent with those adopted in previous years.

(a) Basis of accounting

The financial statements of the Institution are prepared on the historical cost basis and in compliance with accounting policies adopted by the Institution.

(b) Property, plant and equipment

Freehold land is stated at cost. All other property, plant and equipment are stated at cost less accumulated depreciation.

Property, plant and equipment retired from active use and held for disposal are stated at the lower of net book value and net realisable value.

Depreciation

Freehold land is not amortised. Leasehold land and buildings are depreciated over the shorter of the lease term and their useful lives, unless it is reasonably that the Institution will obtain the ownership by end of the leaser term. The straight-line method is used to write off the cost of the assets over the term of their estimated useful lives at the following principal annual rates:

Freehold buildings	2%
Leasehold land and buildings	2%
Furniture and fittings	5% - 20%
Office equipments	10%
Library books	10%
Building renovation	5%

(c) Investments

Long term investment is stated at cost. An allowance is made when the Council are of the view that there is a diminution in its value which is other than temporary.

(d) Receivables

Receivables are initially recognised at their cost when the contractual right to receive cash or another financial asset from another entity is established.

Subsequent to initial recognition, receivables are stated at cost less allowance for doubtful debts.

Receivables are not held for the purpose of trading.

(e) Subscription in arrears

Subscription in arrears of one year and more and where, in the opinion of the Council, are no longer recoverable from its members are written off to the Statement of Income and Expenditure.

(f) Cash and cash equivalents

Cash and cash equivalents consist of cash on hand, balances and deposits with banks and highly liquid investments which have an insignificant risk of changes in value, net of bank balances held in trust.

(g) Payables

Payables are measured initially and subsequently at cost. Payables are recognised when there is a contractual obligation to deliver cash or another financial asset to another entity.

(h) Loans and borrowings

Loans and borrowings are stated at amortised cost with any difference between the cost and redemption value being recognised in the income statement over the period of the loans and borrowings using the effective interest method.

(i) Taxation

Tax on the surplus or deficit for the year comprises current and deferred tax. Income tax is recognised in the Statement of Income and Expenditure.

Current tax expense is the expected tax payable on the taxable income for the year, using tax rates enacted or substantially enacted at the balance sheet date, and any adjustment to tax payable in respect of previous years

Deferred tax is provided, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Temporary differences are not recognised for goodwill nor deductible for tax purposes and the initial recognition of assets or liabilities that at the time of the transaction affects neither accounting nor taxable profit. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantially enacted at the balance sheet date.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilized.

(j) Capital reserve fund

Fund raised from members for the purchase of property, plant and equipment as well as entrance and transfer fees received from members are capitalised as Capital Reserve Fund.

(k) Library fund

Enrollment fee received from corporate members for library membership of the Institution and donation received from members or nonmembers for the library are capitalised as Library Fund.

(l) Income recognition

i) Member's subscription fee

Member's subscription fee is payable annually at the beginning of the financial year. Only that subscription which is attributable to the current financial year is recognised as income. Subscription relating to periods beyond the current financial year is taken up in the Balance Sheet as subscription in advance under Current Liabilities. Subscription is payable in full irrespective of the date of resignation of members during the financial year.

ii) Advertisement in Bulletin/Journal

Advertisement income receivable for the placement of advertisement in bulletin/journal published by the Institution is recognised when the right to receive payment is established.

iii) Rental income

Rental income is recognised when the right to receive payment is established.

iv) Credit cards commission

Credit cards commission from the banks is recognised when the right to receive payment is established.

v) Interest income

Interest income is recognised in the Statement of Income and Expenditure as it accrues, taking into account the effective yield on the asset.

Council's Responsibility for the Financial Statements

The Council is responsible for the preparation and fair presentation of these financial statements in accordance with accounting policies adopted by the Council. This responsibility includes: designing, implementing and maintaining internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with approved standards on auditing in Malaysia. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgment, including the assessment of risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the Institution's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Institution's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Council, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements have been properly drawn up in accordance with accounting policies adopted by the Council Fund as to give a true and fair view of the financial position of the Education Fund as of 31 December 2008 and of their financial performance and cash flows for the year then ended.
