About the Organisers

Pertubuhan Akitek Malaysia (PAM) is the national professional institute representing architects in Malaysia.

The mission statement of the Institute is "To promote the advancement of architecture and the architectural professional for the betterment of society". The Institute provides a framework for its members to operate effectively: to do, to run and to get the business of architecture within the Code of Conduct and Scale of Fees.

Royal Institution of Surveyors Malaysia (RISM) is the registered proprietor of the certification mark "Sr" and the registration is currently valid and subsisting under the Trademarks Act 2019. The Institution comprises four distinct but closely related Divisions i.e. Geomatics and Land Surveying Division, Quantity Surveying Division, Property Surveying Division and Building Surveying Division. The Divisional Chairs are members of the General Council which is the governing body of the Institution.

The mission statement of the Institution is "To continuously improve the standards of professional practice and ethics, To promote the welfare and professional development of members, To expand by incorporating related disciplines into our profession and to continue to be relevant and of benefit to the public

BK Asia Pacific is group of companies incorporated in the Asia Pacific Region providing a comprehensive network of project management, commercial and contract management services to the international construction industry, with offices in China (Hong Kong, Macau and Shanghai), Malaysia, Philippines, Singapore and Vietnam. OBJECTIVE

With the Conditional Movement Control Order and its extensions by our Government to tackle the Coronavirus or Covid-19 pandemic, life must go on under such difficult and uncertain times. Players and personnel in the construction industry must continue to develop / improve and adapt through acquiring commercial and contractual knowledge and skills, including experiential learning.

This specifically targeted training programme combines construction contract and technical knowledge with practical experience and skills with work related discussions, including the Trainer sharing his experience through three past economic downturns/recession. This impending economic downturn/recession is likely to be the most severe, both locally and globally.

Under such unfortunate circumstances, PAM & RISM in collaboration with BK Entrust will be organising a series of training seminar via webinar due to the movement control restriction. There are fifteen (15) comprehensive training sessions in this programme, covering a comprehensive contract administration/management topic, including related case law updates with Q&A discussion relating each topic presented, after each session, which is between 2 – 3 hours session.

Each session is stand-alone, based on BK Entrust construction contract and management articles published in MBAM Journal since 2002 to date and updated to incorporate primarily Malaysian standard forms of contract, in particular PAM 2006/2018 and JKR/PWD contracts.
