SYNOPSIS

Private Retirement Schemes (PRS) is a voluntary long-term investment scheme designed to help individuals accumulate savings for retirement. PRS seeks to enhance choices available for all Malaysians, whether employed or self-employed, to voluntarily supplement their EPF under a well-structured and regulated environment supervised by the Securities Commission. The PRS is envisioned to contribute significantly towards enhancing retirement security of all Malaysians when they retire.

The Private Pension Administrator (PPA) is the central administrator for PRS, a body approved by the SC to provide an enabling environment for PRS, oversee and promote the growth of the industry, create general awareness and educating the public on PRS as well as protecting members' interests.
