

WEBINAR TALK ON THE IMPORTANCE OF COMMON DATA ENVIRONMENT (CDE) IN INFRASTRUCTURE PROJECTS

26 NOVEMBER 2021 | 10.00 AM-12.00 PM

BEM Approved CDP: 2 Hours Ref. No.: IEM21/HQ/455/T(w)

Synopsis

Covid-19 pandemic has catalysed the digitization process faster than ever before. In the era of the world without border, leveraging on big data and standardization is the key to unlock the potential of the 4th Industrial Revolution. Building Information Modelling (BIM) is identified as the key disruptive technologies under the Construction 4.0 Strategic Plan (2021-2025) that would enable collaboration, coordination and communication in real-time among the industry players.

This webinar is aimed to give understanding to the participants on the importance of Common Data Environment (CDE) in Infrastructure Projects.
