

# PROJECT MANAGEMENT CONFERENCE 2022

**1 9 M A R C H 2 0 2 2**

KUALA LUMPUR CONVENTION CENTRE  
KUALA LUMPUR • MALAYSIA

## “ THE FUTURE OF PROJECT MANAGEMENT ”

### INTRODUCTION

In conjunction with the 1st Malaysian Engineering Exhibition and Conference 2022 (ENGINEER™), the Project Management Technical Division (PMTD) of IEM is proudly organising the inaugural project management conference in Malaysia, i.e. "Project Management Conference 2022 (PROMAC 2022)" that brings together influential speakers with diverse backgrounds in Project Management to discuss the current and emerging practices across different spectrums. The anticipated participants of PROMAC 2022 would be project stakeholders from across the value chain of the industry i.e. project owners, regulators/authorities, government agencies, consultants, contractors, investors, CAPEX financing institutions and academicians.

These would include project managers, project engineers, contract managers, government policy makers and officials, finance managers and all other professionals involved in managing projects as well as academicians, researchers and postgraduate students undertaking research on Project Management. PROMAC 2022 is relevant to all sectors across the Project Management community.

### WHY YOU SHOULD ATTEND?

- National level conference which provides an opportunity for creating business relationships via the exchange of ideas, latest trends and techniques with respect to the implementation of Project Management tools, methods, approaches, talents, skills, knowledge and digitalisation within the construction mega projects, IT projects and energy sectors;
- Technical experts' views and opinions on the current mega projects to boost the construction sector in 2022 as highlighted in the Economic Outlook 2022 report released by the Ministry of Finance;
- Showcase latest development leveraging project management expertise across various industries via 3 main themes, namely Construction Mega Projects in Malaysia (Infrastructure); ICT and Digital Project Management; Managing Projects in the Energy Sector;
- Opportunity in expanding contacts and exclusive networking with other participants within Project Management community
