

## WEBINAR PANEL SESSION

### ASEAN Business Chat for Engineering – Oil & Gas

CPD Hours : 2    CPD Ref No : IEM22/HQ/009/T(w)

Oil, Gas and Mining Technical Division

## SYNOPSIS

Engineering is not just about your ability to do technical design but your ability to look at the best possible way to reduce the cost of production and finding the best solution to solve your technical problems. This is our business, engineering business.

The panelists will be discussing on Malaysia's engineering technical capabilities that can be valuable for international engineering businesses. Participants can find a focus in technical expertise that the region needs.

Session Moderator: Ms. Ayesha Nafisah
