BACKGROUND

As a world-leading provider of integrated ICT solutions, ZTE provides innovative technologies and product solutions for global telecommunications operators, government and enterprise customers, and consumers. Founded in 1985, the company has been listed in both the Hong Kong market and the Shenzhen market. Its business covers 160 countries and regions, serving more than 1/4 of the global population. It is committed to achieving the vision of "making communication and trust everywhere."

ZTE has complete end-to-end product lines and integrated solutions in the communications industry. Through a full range of wireless, wired, service, terminal products, and professional communications services, ZTE can flexibly meet the differentiated and rapid innovation requirements of different operators and government and enterprise customers worldwide. By the end of 2021, ZTE had filed over 84000 patents worldwide and accumulated over the years 42000 patents worldwide. ZTE has filed over 4572 chip patents and has granted over 1,990 licenses.

With over 30 years of experience in communication network construction, ZTE has established a global end-to-end engineering service capability system. ZTE has made great achievements in engineering delivery in more than 160 countries and regions around the world.
