

Industry4WRD WEBINAR SERIES |

BEM Approved CPD/PDP Hours: 2
Ref No: IEM22/HO/279/T(w)

The VUCA World, Engineering Community & Fourth Industrial Revolution

Organised by

CONSULTING ENGINEERS SEPCIAL INTEREST GROUP (CESIG)

AER ASEAN Engineering Inspector - Manufacturing (AEI-MFG)

Synopsis:

Dubbed the inevitable convergence of the cyber-physical worlds, the Fourth Industrial Revolution (4IR) is reshaping economies and societies around the globe. The opportunities arising from its evolution in ASEAN are limitless. The 4IR offers people the opportunity to grow better connected, helps economies grow and become more competitive, empowers ASEAN's citizens and improves their livelihoods through digitalising the provision of basic social services, and helps society decarbonise to meet sustainable development challenges confronting the region. The world crisis, such as the COVID-19 pandemic, trade war, etc. have caused the Malaysian organization and businesses to become more Volatility, Uncertainty, Complexity and Ambiguity (VUCA). In this webinar, Prof. Dr Tan will share the global challenges, megatrends, digital transformation, and fourth industrial revolution in relation to the engineering community.

Ir. Prof. Dr TAN Chee Fai AMN

- Deputy Vice-Chancellor | Infrastructure University Kuala Lumpur | IUKL
- Technical expert, ISO/IEC Smart Manufacturing Standards Map Task Force | ISO/IEC SM2TF
- Digital Transformation Advisor, Malaysia Productivity Corporation | MPC
- Chairman, AER ASEAN Engineering Inspector of Manufacturing | AER AEI-MFG
- Chairman, Chinese Mechanical Engineering Society Malaysia Chapter | CMES Malaysia
- Focus on Digital Transformation

Friday | 29 July 2022 | 5.30 PM – 7.30 PM (MYT)

| Register online

REGISTRATION FEES

IEM Students: FOC

IEM Members: RM15 (Online) / RM20 (Offline)

Non-IEM Members: RM70
