Gerard

**VIRTUAL PLATFORM:
GO TO WEBINAR**

30TH SEPTEMBER 2022, FRIDAY

3:00 P.M. - 4:00 P.M.

SPEAKER'S

Background

Gerald is an Author of 4 self-help and motivational books, an engaging International Speaker and a Certified Master Coach and Trainer, specializing in creating long-lasting Positive Impact in people's lives. As a Certified Mentor at FutureLab Malaysia and GrowthX Academy Asia, he has mentored students and jobseekers on career matters; independent business owners and entrepreneurs on building brands and scaling their businesses.

Gerald is also an Award-winning Corporate Professional and has held senior leadership roles in Fast Moving Consumer Goods, Telecommunications and Technology companies.

Gerald is passionate about helping people communicate better and reach their career dreams.

SYNOPSIS

There are certain stereotypes and myths inherent in all professions. The engineering field is no exception. Many people perceive engineers in an entirely one-dimensional way, associating certain traits (or lack thereof) with them. One of the few misconceptions about engineers is that they lack or have poor communication skills.

While this may be far from the truth, join Gerald, the author of "Climbing the Corporate Ladder... and Trying to not Fall Down" - a book that has inspired many to achieve their career goals, as he shares with you why communication skills is one of the most important skills in today's world and how honing it will bring you career success.
