Young engineers, engineering students attend summit

KOTA KINABALU: Malaysian young engineers and engineering university students gathered at the IEM YES National Summit 2022 to discuss issues related to engineering career, professional development, education, technical site visit, technical information exchange and networking activities.

This year, the event was organised by IEM YES Sabah Branch from 27th to 30th October in Kota Kinabalu.

The opening ceremony was officiated by IEM Sabah Branch Chairman, Ir. Willy Chin.

There were 80 participants,

including representatives from IEM YES Sabah Branch, IEM YES HQ, IEM YES Penang, IEM YES Perak, IEM YES Southern Branch, IEM YES Miri, IEM YES Sarawak, IEM YES Pahang, together with the IEM YES Student Section from various universities.

Activities conducted during the summit such as Inter-branch meeting at University Malaysia Sabah, technical visits to Jesselton Twin Tower and Nutri-bah to enrich the engineering knowledge of young engineers.

Additionally, team building games were held at ZIP Borneo, Kiulu to create bonding among

the participants for enhancing networking and discussion forum on the way forward for engineers.

The closing of the NATSUM 2022 was held at one of the iconic landmarks in Kota Kinabalu, which is the Sabah International Convention Centre (SICC).

These activities have encouraged fellow young engineers to be actively involved in IEM Young Engineers Section to enable them to connect, collaborate and share knowledge to become the future generation of engineers contributing towards the nation's growth.
