SYNOPSIS

PETRONAS Research Sdn. Bhd. (PRSB) is a PETRONAS' wholly-owned company and is home to one of the main R&D facilities for PETRONAS located in Bangi. PRSB is a part of Group Research & Technology (GR&T), Project Delivery & Technology (PD&T) Division: PETRONAS Centre of Excellence (COE) for innovation and technology advancement.

PRSB aims to be a strategic partner in learning, research, contributing a range of services, resources and programs to strengthen effective discovery, use and management of information.

PRSB also supports the learning and research of its users in discovering and using information resources through mediated, timely and flexible information services.

The Visit PETRONAS Research Sdn Bhd (PRSB) Programme aims to know about the technology and sustainability. Sustainability is becoming a top priority in the Malaysia industry. Many companies are seeking ways to innovate their operations and become more environmentally friendly, especially as new technologies make it easier to collect information about emissions and other environmental factors. In today's digital environment, construction sustainability can't be ignored.

One of greatest challenges that countries-especially developing countries-face in realizing sustainable development is obtaining and putting in place the necessary technologies.
