OVERVIEW:

Project management is a skill which applies to any industry, organization or project. This course provides fundamental knowledge on project management, its principles and concepts. The knowledge applied in this course will refer to the standard of project management which enables the participants to speak with the common language of project management effectively. In addition, participants will be introduced to the gold standard in project management credentials which is the project management professional (PMP) certifications and what are the requirements from the candidate and exam perspectives. At the end of this course, participants will understand the principles of project management in particular the processes and the standard used including the PMBOK Guide. Participants will also be familiar with the PMP credentials, its requirements and examination.

OBJECTIVE:

- To understand the concept and principles of project management
- To understand the standard for project management and PMBOK Guide
- To understand the importance of professional certifications, PMP and its examination

LEARNING OUTCOME:

- Explain the main concepts of project management
- Understand the PMP credential and exam process

TARGET GROUP:

- Executives
- Managers
- Project managers
- Engineers
- Academics
- University's students

PROGRAMME CONTENT:

- Project management Principles
- PMBOK Guide
- Project management professional (PMP) certifications

Cancellation Policy

No cancellation will be accepted prior to the date of the event. However, replacement or substitute may be made at any time with 7 days prior notification and substitute will be charged according to membership status.

Personal Data Protection Act

I have read and understood the IEM's Personal Data Protection Notice published on IEM's website at <http://www.myiem.org.my> and I agree to IEM's use and processing of my personal data as set out in the said notice.

COURSE OUTLINE:

Time	Topics
9.00 – 9.45	Introduction to project and project management
9.45 – 10.45	Project management principles – methodology, project lifecycle, phases, processes, project organization
10.45 – 11.00	Break
