 PAYMENT VIA IEM ONLINE ONLY)

SYNOPSIS ABOUT CENTRE FOR UNMANNED TECHNOLOGIES (CUTe)

The Centre of Unmanned Technologies (CUTe) is designed to advance scientific study and development through human-robot collaboration. The main function of this centre is to bridge the gap between researchers, industries and communities by developing technologies that nurture the next generation of scientists and engineers towards humanizing innovations. The partnership results in an exceptional centre for research and training.

Through the integration of education and research, CUTe is unique amongst other centres in that:

- 1) *It involves the partnership between researchers, industries and communities;*
- 2) *The innovations from the research provide actual solutions to society; and*
- 3) *It exists to exploit multi- and inter-disciplinary knowledge to produce high-quality human capital.*
