The coach will depart IEM at 8.10 a.m. sharp.

BEM Approved CPD Hours: 3
Ref. No: IEM23/HQ/326/V

SYNOPSIS

One of the common ground treatments approaches is using preload surcharge with vertical drain. In the olden days, sand drain has been used as vertical drain to pair with preload surcharge. However, with the advancement of technologies, prefabricated vertical drain (PVD) has been introduced and widely used in today's applications. PVD is a type of plastic strips wick drain wrapped with geotextile filter. This technical visit aims at enabling a better understanding of the production process of PVD in great details and up close.

FEES FOR REGISTRATION

Commitment fees (inclusive SST)
(Non-refundable & non-transferable):

Grade	Registration Fees
IEM Member	RM 30.00
