### SYNOPSIS

NEDA Pekan Solar Plant project is a large-scale solar plant project located in Pekan, Pahang. The 29.99 MWac plant encompasses 125 acres of land and will be ready for a battery energy storage solution (BESS), allowing it to support grid functions even during low sunlight conditions.

The visit allows participants to have a glimpse into the construction of a modern solar photovoltaic plant and the technologies that maximises the capture and conversion of solar energy.
