The Tunnelling & Underground Space Technical Division of The Institution of Engineers, Malaysia (IEM TUSTD) is hosting the 2nd Edition of the **Southeast Asian Conference and Exhibition on Tunnelling and Underground Space (SEACETUS2024)** in Kuala Lumpur, Malaysia. The conference will offer case studies and strategies that demonstrate innovation, skills, and best practices, and help delegates understand the trending technologies and techniques guiding the Tunnelling and Underground Space Construction Industry. Exhibition and Technical Visits will be held as an integral part of the conference.

This conference is aimed at providing a forum for practicing professionals – authorities, engineers, consultants, contractors, town planners, researchers, academicians, manufacturers, and suppliers to share their experiences, research, studies, ideas and views so as to contribute to the advancement of Tunnelling and Underground Space Development generally and particularly in South East Asia and the Asia Pacific. A wide range of high-quality scientific and technical papers of international or regional significance on tunnelling and underground space is expected on the following themes:

- 01 Innovation in Tunnels and Tunnelling Technology
- 02 Innovation in Rock Support and Water Proofing Technology
- 03 Environment Sustainability and Strategic Use of Underground Space
- 04 Planning, Modelling, Design and Construction of Tunnels
- 05 Risk, Health and Safety, Contractual Practices and Project Management of Underground Construction
- 06 Instrumentation and Monitoring in Underground Construction
- 07 Conventional Tunnelling, Sprayed Concrete Use, Drill and Blast Excavation
- 08 Mechanised Tunnelling and Excavation (Hard Rock, Soft Rock and Soil)

- 09 Geological and Geotechnical Site Investigation and Ground characterisation
- 10 Stability Assessment and Ground Stabilization in Underground Construction
- 11 Operation, Repair and Maintenance of Tunnels and Underground Structures
- 12 Design and Installation of Mechanical and Electrical Systems for Underground Structures
- 13 Information Modelling in Tunnelling and Underground Space Development
- 14 Projects and Case Histories
- 15 Others
