

Pre-Recorded Webinar Talk on Well Plug & Abandonment – The Complexities

**in conjunction with World Engineering Day Celebration from 4th March till 9th March 2024*

CPD Hours : 2 CPD Ref No : IEM24/HQ/065/T (w)

Oil, Gas and Mining Technical Division

SYNOPSIS

What is Well Plug and Abandonment? How is this related to the platform or field decommissioning? What are the requirements? The issue is not just about downhole complexities of wells that have been produced for the past 40 to 60 years, but complexities related to limited budget allocation, operations complexities, field logistics and competition of importance with drilling wells for production. Come and join in this session to understand the management of this operations.

SPEAKER

Ir. Razak Yakob

Ir. Razak Yakob is a Drilling Engineering Consultant. He has been in the oil and gas industry for more than 25 years, working for various multi-national and local companies. He has a bachelor's degree in Petroleum Engineering from the Colorado School of Mines and MBA from the University of Sunderland. Razak is a Professional Engineer with Practicing Certificate. He is the Vice President for the IEM and Chief Editor for the Jurutera Bulletin. He is also the advisor for the IEM Oil, Gas and Mining Technical Division.

Friday | 8 March 2024 | 11AM – 1PM
