## Overview

**5TH MARCH 2024 | 8.00 AM - 4.00 PM | HOTEL ONE WORLD**

In view of the rise in energy cost and awareness in carbon footprint, energy management has become increasingly important in industries and critical power installations. Janitza electronics GmbH from Germany with over 60 years history, is an innovative manufacturer in software & hardware in energy management, power quality monitoring and residual current monitoring (RCM) systems. At the end of the seminar, the participants will learn the latest practices in the fast changing outlook of energy management market.
