

IEM GUIDELINE ON SIMPLIFIED ESG DISCLOSURE FOR BUILT ENVIRONMENT

BEM APPROVED CPD/PDP HOURS: 2 REF NO.: IEM24/HQ/115/T (W)

WHAT IS IT ABOUT?

Environmental, Social, and Governance (ESG) represents a trio of foundational pillars critical to the frameworks guiding businesses towards sustainable and ethical practices. ESG encompasses a series of strategies supported by a structured action plan and clear, transparent communication about the outcomes of these strategies. It forms the basis of a thorough report and marks the initial step towards crafting a strategy that assists a corporation in establishing objectives, tracking progress, and addressing sustainability-related impacts and challenges. This process is pivotal for providing stakeholders with a clearer insight into the company's direction. The primary objective of ESG is to identify and address all non-financial risks and opportunities that are part and parcel of a company's everyday operations, thereby fostering a holistic approach to sustainability and corporate responsibility.

WHO IS THE SPEAKER?

Ir. Ts Dr Leong Kah Hon is an Associate Professor in the Department of Environmental Engineering, Faculty of Engineering and Green Technology at Universiti Tunku Abdul Rahman (UTAR) and a HRDF Accredited Trainer. He obtained his Doctor of Philosophy (Civil and Environmental Engineering) from Universiti Malaya and professional qualifications from the Board of Engineers Malaysia and Malaysia Board of Technologists. He practises his engineering in Singapore for three years before joining the education sector. His great contribution to the environment sustainability has awarded him the AAET Green Award 2021 (Malaysia). He has more than six years of experience in teaching. His effective and interactive training methods that emphasise hands-on approaches have earned him much recognition. He was also the recipient of UTAR Teaching Excellence Award in year 2021.
