Synopsis:

This forum aims to explore the pivotal role that consultants play in driving and supporting Malaysia's key national initiatives. The focus will be on the National Industry 4.0 Framework (NIMP), the National Energy Transition Roadmap (NETR), the Hydrogen Economy and Technology Roadmap, and the Educational Reforms. These initiatives are crucial for Malaysia's economic transformation, sustainable energy future, and educational advancements. This forum provides a platform for stakeholders to exchange knowledge, share best practices, and foster partnerships that will contribute to the successful implementation of Malaysia's national initiatives.

Forum Objectives:

- **Understanding National Initiatives:** Provide a comprehensive overview of Malaysia's national initiatives and their strategic goals.
- **Role of Consultants:** Discuss how consultants can contribute to the successful implementation of these initiatives, addressing challenges and leveraging opportunities.
- **Best Practices and Case Studies:** Share insights and examples of successful consultancy engagements that have supported similar national initiatives.
- **Interactive Discussions:** Facilitate knowledge exchange and collaboration among stakeholders to enhance the effectiveness of consultancy roles.
