

# WEBINAR TALK ON PORTABLE APPLIANCES TESTING

**DATE : 5th September 2024**  
**TIME : 2pm to 4pm**  
**VENUE : ZOOM - Virtual Platform**

**Organised By**  
**Electrical Technical Division**

**BEM Approved CPD/PDP Hours: 2 | Ref No: Applying**

**SPEAKER**

**Mr Richard Bennet**

As a senior category manager I am charged with the responsibility to manage a product range which provides Electrical Safety Test equipment to satisfy a global customer base. My professional focus is to provide world class test equipment to a global customer base in adherence to standards both locally and on a global platform. Within my professional capacity I also work with influential governing bodies, committees and institutions to effect change where standards and guidelines are not present or adequate. With the goal to protect life and property. In doing this we are able to improve understanding and eventually prevent tragedies. Senior Category Manager for Seaward Electronics – Part of the GMCI Group

A Senior category manager within the Seaward business and wider GMCI group. With complete ownership of the category management within Installation Testers, High Voltage Indicators and Portable or Fixed Appliance Testers.

## REGISTRATION FEES

**IEM Students: Free**

**IEM Members:**

**RM15 (Online) / RM20 (Offline)**

**Non-IEM Members: RM70**

## THE IMPORTANCE OF ELECTRICAL SAFETY TESTING

This module is designed to educate engineers, insurers, fire protection authorities and government organisations on the importance of routine and comprehensive portable and fixed appliance testing. The module will cover, What is PAT testing, why we PAT test inclusive of protecting life, legal requirements and protecting capital investments.

How we PAT test inclusive of:

Tests Carried out

Class of Appliances and differentiation in testing

The session will also cover which standards we test to globally and how do we determine periodicity by risk-based assessment.
