Highlights of the Seminar

- Retrofitting HVAC Systems
- Managing Carbon Footprints
- Sustainability Experiences by Sunway Malls
- EV Charging Stations: Installation & Role
- Safety Management in Shopping Malls

Engineering operations are inherently crucial to facility management in shopping malls where the back-of-house has to be in top condition all the time to ensure an optimum environment for all patrons. In the current scenario, it is also essential to focus on ESG & SDG for cost management in the long term.
