### GUNUNG NUANG

Gunung Nuang has the height of 1493m (4898ft). Its peak marks the meeting point of three states, Negeri Sembilan, Pahang and Selangor. The mountain itself is the highest point in Selangor and part of the Titiwangsa Mountains. There are three hiking routes to the peak and all of them were built by Malaysian Department of Wildlife and National Parks. Two of them start in Selangor, one at Kuala Pangsoon in Hulu Langat and another at Kampung Kemensah in Gombak. The third path originates from Bukit Tinggi in Bentong, Pahang. Genting Highlands is visible at night from the peak.
